Propelling growth through expansion

To fuel its growth further, GACL is working on establishing new projects and expanding its current capacity. GACL has undertaken various projects which include 10,000 TPA Hydrazine Hydrate Project, 105,000 TPA Chloromethanes Project, 33,870 TPA Food Grade Phosphoric Acid Project, expanding existing Caustic Soda production capacity at Dahej from 785 TPD to 1310 TPD, 65 MW Coal based Power Plant and 800 TPD Caustic Soda Plant integrated with a 130 MW Coal based Power Plant of GACL-NALCO Alkalies & Chemicals Pvt. Ltd. (GNAL), a Joint Venture with M/s. National Aluminium Company Ltd. (NALCO) at Dahej. GACL has also joined hands with GAIL (India) Limited to set up a Bioethanol plant of 500 KLD capacity in the state of Gujarat.

Striving for a cleaner tomorrow with Alternative Energy Sources

At GACL, powering growth responsibly has been a very vital aspect of the corporate governance. Apart from the various eco-friendly technologies, the organization has also invested in alternative sources of energy. It has 171.4 MW of Wind Power and 35 MW of Solar Power generation capacity. By continued addition of Renewable Energy Generation Capacity for Captive use, GACL is striving to achieve 'net zero' status. The organization has joined hands with GAIL (India) Limited to set-up a Bioethanol plant of 500 KLD capacity which will be used for 20% Ethanol Blending in Petrol. GACL today uses close to 25% of electric power generated from alternative means for the production of Caustic Soda, Hydrogen and other products. It is producing about 8 MT/Day of green Hydrogen. GACL and NTPC Renewable Energy Ltd. (NTPC-REL) have also signed an MoU to collaborate in the field of renewable energy and green chemicals.

ANNEXURE TO THE NOTICE OF THE 49TH ANNUAL GENERAL MEETING

STATEMENT AS REQUIRED UNDER SECTION 102(1) OF THE COMPANIES ACT, 2013

The following explanatory statement set out all the material facts relating to Special Business mentioned in the Notice under Item Nos. 4 and 5 :

Item No. 4

The Government of Gujarat (GoG) in exercise of the powers vested in it under the Articles 11 and 14-A of the Articles of Association of the Company has vide its Notification No. AIS/35.2022/24/G dated 26th July, 2022 (“GoG Order”) communicated to the Company that Shri Swaroop P. IAS (DIN: 08103838), Commissioner of Land Reforms & Ex-officio Secretary to Government, Revenue Department, GoG, would hold additional charge of the post of Managing Director of the Company, until further orders, vice Shri Harshad R Patel, IAS, transferred. Shri Swaroop P. IAS assumed the charge of Managing Director of the Company w.e.f. 29th July, 2022 until further orders by Government. Thus, he is nominated as Government Director on the Board of the Company with effect from 29th July, 2022.

In pursuance of the provisions of Section 203 of the Act, GoG Order and as recommended by the Nomination-cum-Remuneration Committee at its meeting held on 3rd August, 2022, the Board of Directors of the Company had in its Meeting held on 4th August, 2022 unanimously appointed Shri Swaroop P. IAS as Non Rotational Government Director and Managing Director of the Company with effect from 29th July, 2022 and approved payment of remuneration including 5% of Basic Pay as per Sixth Pay Commission as payment of charge allowance / special pay or such other amount as may be conveyed by the Government, from time to time, during the period he holds the post of the Managing Director of the Company and providing of perquisites by the Company to the Managing Director in accordance with the Articles of Association of the Company and to the extent permissible under Schedule V of the Companies Act, 2013, subject to the approval of Members of the Company. Shri Swaroop P. IAS is holding additional charge as Managing Director of the Company and therefore, does not draw regular remuneration from the Company. As per the Article 14-A of the Articles of Association of the Company, the term and remuneration fixed by the Government shall constitute and shall be binding as a contract between Shri Swaroop P. IAS as Managing Director and the Company. He shall be paid such remuneration as mentioned above, or as may be conveyed by the Government, from time to time, during the period he holds the post of the Managing Director of the Company.

The remuneration as may be fixed by the Government from time to time shall be paid as minimum remuneration in the event of absence or inadequacy of profits in any financial year during his tenure as Managing Director subject to the limit prescribed in Schedule V of the Companies Act, 2013.

The Company has received Notice in writing under Section

160 of the Act from a Member proposing candidature of Shri Swaroop P. IAS for the office of Director. The Board considers that Shri Swaroop P.’s continued association would be of immense benefit to the Company and it is desirable to avail the services of Shri Swaroop P. IAS as Managing Director. This may be treated as a written memorandum setting out terms and conditions of appointment of Shri Swaroop P. IAS as Managing Director as per Section 190 of the Act.

Shri Swaroop P. is an IAS Officer of 2003 batch. He has done Bachelor of Physiotherapy and Master of Science in Applied Psychology. He did his Master’s in International Development Policy from Sanford School of Public Policy, Duke University, U.S.A. Presently, he is Commissioner of Land Reforms & Ex-officio Secretary to Government, Revenue Department, Gandhinagar.

He has held various important positions in Government of Gujarat (GoG) like Assistant Collector in Rajula in Amreli District; District Development Officer (DDO), Panchmahals; Municipal Commissioner, Jamnagar; District Collector, Gandhinagar; Additional Commissioner, Industries Department; Collector & District Magistrate, Sabarkantha; Secretary, Tribal Development, Gandhinagar; Municipal Commissioner, Vadodara.

He has also served as Managing Director of Uttar Gujarat Vij Company Limited and Managing Director of Industrial Extension Bureau (iNDEXTb). He has held Directorships in various companies viz., Vadodara Gas Limited, Vadodara Jal Sanchay Private Limited, Gujarat Water Resources Development Corporation Limited, Gujarat Livelihood Promotion Company Limited and Vadodara Smart City Development Limited. He is also Director on the Board of Gujarat State Energy Generation Limited. Brief profile of Shri Swaroop P. IAS along with other details as required pursuant to Regulation 36 (3) of SEBI Listing Regulations and Secretarial Standards as applicable is given in the Annexure-I forming part of this Notice. Except Shri Swaroop P. IAS and his relatives, none of the other Directors / Key Managerial Personnel of the Company and their relatives is/are, in any way, concerned or interested, financially or otherwise, in the aforesaid Resolution No. 4 of the Notice.

In terms of provisions of Section 196, 197, 203 and other applicable provisions, if any, of the Act read with Schedule V of the Act, the appointment of Shri Swaroop P. IAS as Managing Director of the Company and payment of remuneration / special pay, if any, is subject to the approval of Members in General Meeting. Accordingly, the Board recommends the Resolution at Item No. 4 of the Notice for approval by the Members.

Item No. 5

The Board of Directors at its Meeting held on 04.08.2022 have, on the recommendation of the Audit Committee at its Meeting held on 03.08.2022 subject to any other approval,

approved the appointment of M/s. Y. S Thakar & Co., Cost Accountants, Vadodara (Firm Registration No. 000318) as Cost Auditors of the Company to conduct the Audit of the Cost Records of the Company for the Financial Year ending March 31, 2023 at a remuneration of Rs.3,19,000/- plus applicable GST.

In accordance with the provisions of Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to M/s. Y. S Thakar & Co. Cost Auditor, as recommended by the Audit Committee and approved by the Board is required to be ratified by the Members of the Company.

Accordingly, ratification by the Members is sought for the remuneration payable to the Cost Auditor for the Financial Year ending March 31, 2023 by passing Ordinary Resolution as set out at Item No. 5 of the Notice.

None of the Directors / Key Managerial Personnel of the Company and their relatives is/are, in any way, concerned or interested, financially or otherwise, in the Resolution.

The Board recommends the Resolution at Item No. 5 of the Notice for approval by the Members.

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2022

[Pursuant to Section 204(1) of The Companies Act, 2013 and Rule No. 9 of The Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

17th May, 2022

To,
The Members,
GACL-NALCO Alkalies & Chemicals Private Limited
P.O.: Ranoli – 391 350, Dist. Vadodara

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **GACL-NALCO Alkalies & Chemicals Private Limited (CIN:U24100GJ2015PTC085247)**(hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of **GACL-NALCO Alkalies & Chemicals Private Limited's** books, papers, minute books, certificates, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended March 31, 2022, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter.

I have examined the books, papers, minute books, forms and returns filed, and other records maintained by the Company for the financial year ended on March 31, 2022 according to the provisions of:-

- (i) The Companies Act, 2013 ('the Act') and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of External Commercial Borrowings;
- (v) The following applicable Regulations prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):
 - a) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993, regarding the Companies Act and dealing with client;

As the Company is not listed on any Stock Exchange, none of the other Regulations under the SEBI Act are applicable to the Company except as mentioned in this report.

I have also examined compliance with the applicable clauses of the following:-

- i) the Secretarial Standards issued by The Institute of Company Secretaries of India; and
- ii) The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015; ***The Company is not a listed entity, but the Company became a material subsidiary of Gujarat Alkalies and Chemicals Limited, a listed Company, w.e.f. 1st April, 2020 and continued to be so during the Financial Year 2021-22 as well as per Regulations 16 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.***

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc., mentioned above.

I further report that –

The Board of Directors of the Company is duly constituted and all the Directors are Non-Executive Directors. The Company has appointed a Woman Director. The Company is not required to appoint any Independent Director as per Rule 4(2) of the Companies (appointment and Qualifications of Directors) Rules, 2014 and the explanation given under Regulation 24 (1) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. During the period under review the changes in the composition of the Board of Directors were carried out in compliance with the provisions of the Act;

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting. Urgent business, if any, is considered at a shorter notice with the consent of the Directors present. Majority decision is carried through while the dissenting members' views, if any, are captured and recorded as part of the minutes. Recording of meetings held by video conferencing are maintained by the Company.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines. I have relied on

the representations made by the Company and its officers in respect of the systems and processes and mechanism formed for compliances under the applicable laws.

I further report that during the audit period, -

- i) the Company had not made any issue of equity shares or Debt Instruments during the year under report;

Section E: Principle-wise performance

Principle 1 – Businesses should conduct and govern themselves with Ethics, Transparency and Accountability.

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes / No. Does it extend to the Group / Joint Ventures / Suppliers / Contractors / NGOs / Others?
Yes, the Company has only one subsidiary viz. : GACL-NALCO Alkalies & Chemicals Pvt. Ltd. (GNAL) and the said policy is applicable to the Subsidiary Company. So far as Suppliers / Contractors / NGOs / Others are concerned, the policy of the Company is applicable to the extent of their dealings with the Company.
2. How many stakeholder complaints have been received in the past Financial Year and what percentage was satisfactorily resolved by the management?
During the Financial Year 2021-22, the Company had received 33 complaints from shareholders and all the complaints were satisfactorily resolved.

Principle 2 – Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle.

1. List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.
 - i. Caustic Soda Group
 - ii. Sodium Chlorate
 - iii. Chloromethanes Group
2. For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional) :

- i. Reduction during sourcing / production / distribution achieved since the previous year throughout the value chain?
Energy reduction per unit of NaOH production – 17 KWH/MT.
 - ii. Reduction during usage by consumers (energy) has been achieved since the previous year?
Energy reduction per unit of NaOH production – 17 KWH/MT.
3. Does the Company have procedures in place for sustainable sourcing (including transportation)?
- (a) If yes, what percentage of your inputs was sourced sustainably?
Few major activities of sustainable sourcing are mentioned hereunder:
- Our Company has a policy of procurement which reflects sustainable sourcing taking into consideration economical aspect in procurement, environmental friendly processes and giving due weightage to social aspects.
 - In our endeavor of sustainable sourcing we have appealed all our major suppliers to adopt sustainable sourcing in their business.
 - One of the major raw materials is Salt which is a natural product being produced from either sea water or from subsoil water by natural evaporation process in sun light. No chemical which may harm environment is used during manufacturing process. It is transported in bulk in vehicle and no packaging material is used. Considering environment friendly usage, we had changed specifications of Salt from July 2017 and washed Salt is used at both the complexes. By using improved quality salt, chemical consumption and sludge generation has reduced considerably. We procure about 8 (eight) lakhs MT of Salt for Baroda & Dahej complexes from the manufacturers who have salt works spread over different locations within State and these comprise very small to large manufacturers. We have been using Rail rakes instead of Trucks for transportation of major quantity of Salt from faraway places like Maliya, Gandhidham which is eco-friendly means of transportation.
 - Packaging materials like carboys, barrels, bags etc. which are used for filling the finished products are procured from the nearby sources and from small vendors. These packaging materials can be recycled & reused for other purposes.
 - In procurement of certain raw materials like Lime, Alumina Tri Hydrate we have changed packaging size from 50 kg to jumbo bag of 1 MT. Jumbo bags can be reused for other purposes.
 - We support MSME vendors, procure material from them, strive to release payment to them as per government directives and indirectly help to create employment.
 - For entire (100%) procurement of our Company, we follow Procurement Policy of our Company that supports sustainable sourcing.
4. Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?
- If yes, what steps have been taken to improve their capacity and capability of local and small vendors?
- Our company gives preference in procurement of goods and services from local and small producers in surrounding area.
 - We have been procuring entire requirement of Salt for Baroda and Dahej Complexes from the local suppliers situated at Dahej, Gandhar, Jambusar, Bhavnagar and Maliya, Gandhidham etc. Many suppliers in these regions are small suppliers from whom we procure salt. Our company has encouraged to improve quality of Salt by installing salt washery in their salt works. Many small suppliers have installed Salt washery which has benefitted them in improving the quality of Salt by removing impurities at source which has benefitted to them and GACL as well.
 - The Company has supported small vendors by procuring engineering, consumables, general nature items from them at competitive price and we extend favorable payment term to them thus create employment opportunity to local community.
 - To support small producers in their business and to generate employment, we procure consumable and engineering items from them at competitive price and we offer payment term to them as per applicable provision of the Micro Small and Medium Enterprises Development (MSMED) Act, 2006.
5. Does the Company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%).
- As a step further to its environmental preservation philosophy and commitments, the company has installed the new RO plant to recycle 40% liquid effluent stream. We also recycled 56.43% catalyst for Hydrogen peroxide plant.

iv) Rain water harvesting - Rain water harvesting is being done at our solid waste landfill site in surface area of 29 acres by way of groundwater recharge. In Dahej Complex, rain water is being utilized in maintaining green belt by storing rain water in earthen ponds totaling approx. 30,000 m³ capacity.

v) Treatment of effluent - GACL is promoter and member of Vadodara Enviro Channel Limited (VECL) which is responsible for safely conveying treated liquid effluent from industries into estuary of river Mahi through

55 KM long channel. Treated Effluent in Dahej is discharged in Gulf of Cambay via 12 km long captive underground pipeline as recommended by NIO after detailed EIA and CRZ clearance.

- vi) Captive solid waste landfill site - GACL has own solid waste landfill site for safe disposal of hazardous waste.
- vii) Reduction in solid waste quantity by implementing Cleaner production - We have replaced use of raw salt with washed salt (having less impurities) for production of Caustic Soda. By using washed salt, solid waste generation has reduced by around 800 MT/Month.

For more details on Initiatives taken by the Company, kindly refer Management Discussion and Analysis of the Annual Report for the Financial Year 2021-22.

3. Does the Company identify and assess potential environmental risks? Y/N

Yes. Potential environmental risks are identified and assessed before any new project / expansion of existing plant by way of conducting Environmental Impact Assessment & preparing Environment Management Plan for the same.

4. Does the Company have any project related to Clean Development Mechanism? If Yes, whether any environmental compliance report is filed?

In order to continue promote Green technology, and to meet the Solar Renewable Purchase Obligations, the Company had installed 35 MW of Solar Power Plant and 171.45 MW of Wind Power Plants, with an aggregate renewable energy capacity of 206.45 MW. The captive use of the power from these installations has been providing benefits of lower power cost to the Company for its power intensive operations.

The production of Carbon Tetrachloride (CTC) comes under Ozone Depletion Substance (ODS) Rules, 2000 as per the guidelines of Montreal Protocol framed by Government of India, has been phased out while production of CTC only for feed stock application is continued.

In the field of water conservation, the Company has commissioned daily 400 to 500 M³ of wastewater recycling RO Plant for converting waste water into reusable water.

5. Has the Company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc. Y/N. If yes, please give hyperlink for web page etc.

Yes, the Company had installed 35 MW of Solar Power Plant and 171.45 MW of Wind Power Plants, with an aggregate renewable energy capacity of 206.45 MW.

The Company has also installed floating Solar Power Plant having capacity of 640 kw and Solar Rooftop installations having 220 kw Solar Rooftop installations at Dahej complex.

The JV Company (GACL-NALCO Alkalies & Chemicals Pvt. Ltd.) (GNAL) had successfully commissioned Unit #1 of 2x65 Captive Power Plant in May, 2022.

The Company (GACL) and NTPC Renewable Energy Limited (NTPC REL), a wholly owned subsidiary of NTPC Limited have signed Memorandum of Understanding (MoU) on 6th July 2022 to explore the business opportunities of mutual interest in the areas of sourcing of renewable power having optimum mix of solar, wind and other clean energy including energy storage solutions to the extent of about 100 MW, as required for the operations and manufacturing of GACL at Vadodara Complex and/or Dahej Complex or any of its other Complexes and to jointly work on synthesizing Green Chemicals such as Methanol and Ammonia for captive use by GACL using Hydrogen and CO₂ available at GACL.

The Hon'ble Prime Minister has launched a Roadmap for 20% Ethanol Blending in Petrol by 2025, with a view to reduce import of crude oil and save valuable foreign exchange. In response to the Hon'ble Prime Minister of India's call for 'Atmanirbhar Bharat', the Company (GACL) and GAIL (India) Limited (GAIL) have signed Memorandum of Understanding (MoU) and Termsheet for JV agreement for setting up a 500 KLD Bioethanol plant in Gujarat.

6. Are the Emissions / Waste generated by the Company within the permissible limits given by Central Pollution Control Board (CPCB) / Gujarat Pollution Control Board (GPCB) for the Financial Year being reported?

MANAGEMENT DISCUSSION AND ANALYSIS

AN OVERVIEW OF ECONOMY - INDUSTRY STRUCTURE AND DEVELOPMENTS

GLOBAL ECONOMY

India is estimated to be the fastest growing economy at 8.2 per cent in 2022 and 6.9 percent in 2023 as per IMF latest estimates. As per IMF's World Economic Outlook (WEO) April 2022, global growth is projected to slow down from an estimated 6.1 per cent in 2021 to 3.6 per cent in 2022 and 2023 amid ongoing geopolitical conflict, accompanying sanctions and resulting international spillovers through global commodity prices, trade and financial linkages, labour supply. For 2022, inflation is projected at 5.7 percent in advanced economies and 8.7 percent in emerging market and developing economies.

Following more than two years of pandemic, war between Russia-Ukraine has led to high commodity prices, adding to supply disruptions, increasing food insecurity and poverty, exacerbating inflation, contributing to tighter financial conditions, magnifying financial vulnerability, and heightening policy uncertainty. Growth in emerging market and developing economies (EMDEs) this year has been downgraded to 3.4 percent. Despite the negative shock to global activity in 2022, there is essentially no rebound projected next year. Global growth is forecast to edge up only slightly to a still-subdued 3 percent in 2023, as many headwinds in particular, high commodity prices and continued monetary tightening are expected to persist. Moreover, the outlook is subject to various downside risks, including intensifying geopolitical tensions, growing stagflationary headwinds, rising financial instability, continuing supply strains, and worsening food insecurity.

INDIAN ECONOMY

According to the data, the growth in GDP at constant prices (2011-12), also known as real GDP, during FY 2022 is estimated to attain a level of INR 147.36 trillion (US\$1.90 trillion), as against the First Revised Estimate of INR 135.58 trillion (US\$1.75 trillion) for FY 2021. The growth in GDP during FY 2022 is estimated at 8.7 percent as against contraction of 6.6 percent in the previous fiscal due to the impact of strict anti-COVID pandemic restrictions and measures.

Manufacturing in India grew by 9.9 percent during the year against a contraction of 0.6 percent in the previous year. Construction showed a growth of 11.5 percent during the financial year against a contraction 7.3 percent in the previous fiscal. Contact-intensive sectors like trade, hotels, and transport grew 11.1 percent compared to a contraction of 20 percent in previous year. The services sector had earlier suffered a major blow in FY 2021 due to pandemic-related restrictions and grew by 4.2% compared to 2.2% in previous fiscal. The agriculture sector, on the contrary, slowed to 3 percent in FY 2021-22, as compared to a

growth of 3.3 percent in the previous fiscal.

In 2021-22, India exported goods worth over Rs 31 lakh crore. At the same time, its imports at Rs 38.78 lakh crore were 22 per cent higher. This gap was about 12 per cent last year and 18 per cent in 2019-20. The rupee's nearly 4 per cent depreciation against the dollar this year has also made imported items costlier, prompting the federal government to restrict wheat and sugar exports and cut fuel taxes, joining the RBI in the battle against inflation.

Among major countries, the WEO projects India to be the fastest growing economy at 8.2 per cent in 2022-23. The fiscal year 2022-23 has begun with a strong growth in economic activity in April 2022 as seen in the robust performance of e-way bill generation, ETC toll collection, electricity consumption, PMI manufacturing and PMI services. The GST collection for March transactions going up to Rs.1.68 lakh crore, the highest monthly collection, further bodes well for high economic activity in 2022-23. Notwithstanding the presence of inflationary headwinds, the capex driven fiscal path of the Government, as laid down in budget 2022-23, will help the economy post a near 8 per cent growth in real GDP for the current year.

Seen over a longer time horizon, inflation in India's economy has not been as much a challenge as is sensed from month-to-month changes. CPI Inflation during FY 2021-22 averaged 5.5 per cent, 50 basis points below the upper limit of the RBI MPC's inflation band, and lower than 6.2 per cent for FY 2020-21. While inflation is expected to be elevated in 2022-23, mitigating action taken by the Government and RBI may reduce its duration. Earlier in May 2022, the Reserve Bank of India (RBI) raised the benchmark repo rate by 40 basis points. Evidence on consumption patterns further suggests that inflation in India has a lesser impact on low-income strata than on high-income groups. Further, since aggregate demand is recovering only gradually, the risk of sustained high inflation is low.

India is ranked 63 among 190 economies in the ease of doing business, according to the latest World Bank annual ratings. The rank of India improved to 63 in 2019 from 77 in 2018.

INDIAN CHLOR-ALKALI INDUSTRY AT A GLANCE

At present, there are 35 active Chlor-Alkali Units in India. The production of Caustic Soda during the FY 2021-22 has been 37.67 lacs MT as against the total installed capacity of about 47.63 lacs MTPA (as on 31.03.2022) i.e., capacity utilization is approx. 79%. As against this, during the same period GACL has produced 4.58 lacs MT against the installed capacity of 4.12 lacs MTPA and achieved capacity utilization of 110%.

The products of Chlor-alkali industry are the basic raw materials for various industries like Alumina, Paper & Pulp, Soaps & Detergents, Dyes, Pharmaceuticals, Water

Treatment chemicals, Pesticides and other Agrochemicals etc.

The additional capacity expansion during FY 2021-22 was approx. 4.5 Lakhs MTPA in Western India, mainly because of new start-up of GNAL and expansion of existing Plants (Source: AMAI).

Approx. 120 MTPD of Chlorine through pipeline was supplied to major customer for their requirement. This has eased the day-to-day concern of Chlorine disposal and also helped in maximizing Caustic Soda production and better realization of Chlorine from the market. Coupled with this factor, Chlorine demand in various other sectors was also satisfactory and has resulted into achieving more than 100% capacity utilization at our Dahej & Vadodara Complexes.

THE CAUSTIC SODA MARKET SCENARIO

We are a multi-product Company, having more than 37 products in our basket, yet the major revenues are coming from Caustic Soda group and therefore market scenario of Caustic Soda and Chlorine market is of utmost important to us.

The installed capacity of Caustic Soda in the country is about 47.63 lacs MTPA as on 31.03.2022 as compared to 47.75 lacs MTPA as on 31.03.2021. The total installed capacity of 47.63 lacs MTPA is based on Membrane Cell Technology. The Membrane Cell process is energy efficient, as the power requirement is much less and is in the range of 2150-2200 kwh/MT as compared to Mercury Cell where it is around 3150-3300 kwh/MT. GACL has the advantage of having its entire production from Membrane Cell. However, now all the medium & large-scale Chlor-Alkali units have converted their plants to Membrane Cell Technology.

ABOUT GACL

Your Company was established in 1973 and over a period of time, it has emerged as one of the largest producers of Caustic Soda in India with present installed production capacity of 4,12,500 lakhs MTPA of Caustic Soda as on 31st March, 2022 and enjoys the economies of scale. Your Company has about 13% share in the domestic Caustic Soda market.

Your Company has implemented elaborate Environment Management System (EMS), Quality Management System (QMS), Occupational Health & Safety management System (OH & S) & Energy Management System (EnMS) and has embarked on continual improvement. Your Company has achieved ISO 9001:2015, ISO 14001:2015, 45001: 2018 and ISO 50001: 2018 Integrated Management System Certificates.

The Quality Policy of your Company reflects its emphasis and commitments. Since inception, your Company has from time to time, expanded its operations in Chlor-Alkali Sector and also diversified into several higher end products, through forward & backward integrations. GACL was the first Indian Company to replace the Mercury Cell Technology with environment friendly and energy efficient Membrane Technology way back in the year 1989.

GACL has always ensured upgrading and adapting to eco-friendly and green technologies while it ensured the optimum capacity utilization during the Financial Year 2021-22 at Vadodara Complex. Your Company has achieved capacity utilization of 100% and more in some of the products viz. Caustic Soda Lye (110%), Chloromethanes (100%), Caustic Potash Flakes (111%) and Hydrogen Peroxide (105%), Phosphoric Acid (108%), Aluminium Chloride (104%), Sodium Chlorate Granules (106%). Being a chemical manufacturing Company, GACL carries its passion for protecting the environment at every stage of its operations, keeping in view the interests of Customers, Shareholders, Employees, Society, other Stakeholders and Mother Nature.

Your Company's products basket comprises of more than 37 products including Caustic Soda (Lye, Flakes/Prills), Liquid Chlorine, Hydrochloric Acid, Chloromethanes, Hydrogen Peroxide, Anhydrous Aluminium Chloride, Caustic Potash (Lye & Flakes), Potassium Carbonate, Aluminium Chloride, Phosphoric Acid, Chlorinated Paraffin, Poly Aluminium Chloride (various grades), Chlorotoluene, Sodium Chlorate etc. The major revenues are derived from Caustic Soda Group and therefore, Caustic Soda and Chlorine market scenario has a wide impact on your Company's performance.

Your Company's products are used by various industries viz. Textiles, Pulp & Paper, Soaps & Detergents, Alumina, Water Treatment, Petroleum, Plastics, Fertilizers, Pharmaceuticals, Agrochemicals, Plant Protection, Dyes & Dyes Intermediates, refrigeration gases, epoxy etc. and it has marked its presence across the globe even against stiff international competition by exporting its world class products viz. Caustic Soda Flakes, Caustic Soda Prills, Potassium Carbonate, Potassium Hydroxide Flakes, Hydrogen Peroxide, Liquid Chlorine, Phosphoric Acid, Aluminium Chloride, PAC, Hydrochloric Acid and CPW to Europe, West Asia, South East Asia, Africa, Middle East/Far East, SAARC countries etc.

Production of Caustic Soda by electrolysis process is highly power intensive and your Company devised a sustainable strategy to meet its growing energy demands. Besides 90 MW Gas based Captive Co-generation Power Plant and participation in a 145 MW Joint Captive Gas based Power Plant of GIPCL, your Company has taken major initiative for green energy by setting up Wind Farms for a total installed capacity of 171.45 MW as on 31st March 2022. Your Company has already installed 35 MW of Solar Power Plant. With this, the aggregate renewable energy capacity is 206.45 MW including 171.45 MW of Wind Power capacity. Your Company has also installed floating Solar Power Plant having capacity of 640 kw and Solar Rooftop installations having 220 kw Solar Rooftop installations at Dahej complex.

BUSINESS, OPERATIONS & FINANCIAL PERFORMANCE

The total production (excluding power generation) has increased by 6.93% to 17,18,835 MT during the Financial Year 2021-22 from 16,07,469 MT in previous year. The

Production of Caustic Soda Lye, Potassium Hydroxide, Caustic Potash Flakes, Hydrogen Peroxide, Phosphoric Acid, Aluminium Chloride, Poly Aluminium Chloride, Sodium Chlorate Granules and Chlorotoluene has increased during the Financial Year 2021-22 as compared to the previous year.

However, the production of Caustic Soda Flakes, Caustic Soda Prills, Chloromethanes, Potassium Carbonate, Chlorinated Paraffin Wax, Stable Bleaching Powder and Anhydrous Sodium Sulphate has decreased during the Financial Year 2021-22 as compared to the previous year.

During the Financial Year 2021-22, your Company on standalone basis has achieved Net External Sales of Rs.3,683.40 Crores as against Rs.2,344.49 Crores in the previous year.

RESEARCH AND DEVELOPMENT

The R&D efforts are directed on the specific areas strategically linked with the need of organization. R&D efforts can lead to improved productivity that helps increase margins, further creating an edge in outpacing competitors. The work

is being pursued on the development of new product / process, import substitutes, process improvement / cost reduction, cooling water treatment chemicals / formulations, effluent treatment / control, waste utilization, developmental work on the existing products for improving the quality and marketability and to facilitate the absorption of new technologies.

During the year under review, US patent and Indian patent office have granted patent of Hydrazine Hydrate. Your Company is also working on waste utilization projects like, regeneration of Spent Alamine-336. Spent Alamine generated from Phosphoric Acid Plant to get dual benefit in terms of environmental as well as monetary and also developed the indigenous raw material (Alamine-336) instead of imported to have better control on the process. The indigenous Alamine developed by R&D and field trials is successfully completed.

The work on cooling water treatment including the technical support in respect of corrosion and microbiological growth monitoring was carried out successfully. The R&D department also supports new upcoming projects in terms of cooling water treatment and technical support with our inhouse developed formulation. The R&D Department prepared and supplied disinfectant solutions (Hypo. base) during the COVID-19 spread, for sanitizing the premises of organisation and also provided to our customers as per their needs. Necessary technical support provided to the various Departments in the Company, which resulted in to the overall fruitful benefits.

EXPANSION AND DIVERSIFICATION

As a part of its ambitious growth plan, your Company has taken up various projects, which include adding a new product in the product portfolio as well as expanding the current product lines by putting up additional capacities through new plants.

A plant for manufacturing 10,000 TPA of Hydrazine hydrate as well as a new 1,05,000 TPA Chloromethanes Plant, being put-up at two different locations at Dahej, are expected to be operational by second quarter of 2022-23. Hydrazine Hydrate is a new, import substitute product, whereas in case of Chloromethanes, it is capacity addition to the similar products being manufactured at Vadodara Complex.

Your Company is also expanding its Caustic Soda Production Capacity at Dahej from 785 TPD to 1310 TPD. Out of total 525 MT capacity expansion, 40 MT is already commissioned through reconfiguration of old plant and balance capacity will be commissioned progressively during the second quarter of 2022-23. A 65 MW Coal based Power Plant at Dahej is also being considered to be put up. Your Company is also putting up a 33,870 TPA Food Grade Phosphoric Acid plant at Dahej which is expected to be operational by third quarter of 2022-23.

Your Company, as a long-term strategic measure, to enhance its in-house chlorine consumption, has planned to put-up a 30,000 TPA Chlorotoluene Project at Dahej to produce benzyl chloride, benzaldehyde and benzyl alcohol, which

is planned to be made operational during the Financial Year 2024-25.

Your Company has formed a Joint Venture with M/s. NALCO for putting up a new 800 TPD Caustic Soda Plant integrated with a 130 MW Coal based Power Plant at new complex, D-II/9 at Dahej. The JV Company (GACL-NALCO Alkalies & Chemicals Pvt. Ltd.) (GNAL) was incorporated in December 2015. GNAL had successfully commissioned one of the Caustic Evaporation Units (CEU) on 30th March 2022, and had produced 100 MT Caustic Soda Lye - Rayon grade, and had declared the partial commissioning of Caustic Soda plant. Further, GNAL had also successfully commissioned Unit #1 of 2x65 Captive Power Plant in May, 2022 together with two out of eight electrolyzers of Caustic Soda Plant. The entire project comprising of 800 TPD Caustic Soda Plant and 2 x 65 MW Power Plant is expected to be fully operational by third quarter of Financial Year 2022-23.

In order to continue promoting Green technology and to meet the Solar Renewable Purchase Obligations, your Company has already installed 35 MW of Solar Power Plant and 171.45 MW of Wind Power Plants, with an aggregate renewable energy capacity of 206.45 MW. The captive use of the power from these installations has been providing benefits of lower power cost to your Company for its power intensive operations.

Your Company and NTPC Renewable Energy Limited (NTPC REL), a wholly owned subsidiary of NTPC Limited have signed Memorandum of Understanding (MoU) on 6th July 2022 to explore the business opportunities of mutual interest in the areas of sourcing of renewable power having optimum mix of solar, wind and other clean energy including energy storage solutions to the extent of about 100 MW, as required for the operations and manufacturing of GACL at Vadodara Complex and/or Dahej Complex or any of its other Complexes and to jointly work on synthesizing Green Chemicals such as Methanol and Ammonia for captive use by GACL using Hydrogen and CO₂ available at GACL.

The Hon'ble Prime Minister has launched a Roadmap for 20% Ethanol Blending in Petrol by 2025, with a view to reduce import of crude oil and save valuable foreign exchange. In response to the Hon'ble Prime Minister of India's call for 'Atmanirbhar Bharat', your Company and GAIL (India) Limited (GAIL) have signed Memorandum of Understanding(MoU) for setting up a 500 KLD Bioethanol plant in Gujarat. The estimated project cost is to the tune of Rs.1,000 Crores and it is expected to generate annual revenue of approximately Rs.1500 Crores. A Term Sheet for the same has been executed between the Parties. A Detailed Feasibility Report (DFR) is under preparation. Based on outcomes of the DFR and other conditions precedents, both the Parties will mutually decide to enter into a definitive agreement(s).

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

The operations of your Company are under one segment only i.e., Chemical Manufacturing. The total production

(excluding power generation) of your Company has increased by 6.93% to 17,18,835 MT during the Financial Year 2021-22 from 16,07,469 MT in previous year.

Product-wise production details are given in back side of the cover page of the Annual Report. Further, the quantitative product-wise data relating to production and sales for last ten years are also given in the Annual Report.

OPPORTUNITIES & THREATS, RISKS & CONCERNS

The strengths of your Company are economies of scale, state of the art eco-friendly technologies, extensive usage of renewable energy, integrated downstream plants, strong network for Marketing and Distribution, In-house Research and Development facilities, proximity to major raw material source and markets etc. Economical power supply has remained a major area of concern for your Company, during the year under review, the power cost has increased as compared to previous year due to increase in power generation cost from captive power plant & due to increase in demand charges by GIPCL & power purchased from NTPC and DGVCL.

Your Company has followed a business plan for growth and could sustain operating performance. Your Company has continued to concentrate both on top line and bottom line. The increase in Net External Sales by 57.11%, decrease in expenses related to purchase of traded goods by 69.04%, finance cost by 60.22%, insurance cost by 6.57% are the major factors contributing to the profitability of your Company, during the Financial Year 2021-22. However, due to decrease in other operating income, other income, increase in raw material consumption, natural gas consumption, Net External Electricity charges, water, fuel & Natural Gas costs, Employee Benefits Expense, Depreciation and Amortisation expense, Stores and Spare Parts consumed and Repairs & Maintenance Expense, Job-Work/Processing Charges, Packing Materials Cost and Other expenses, the profitability of your Company for the year under review was affected.

To augment its power resource with eco-friendly renewable energy in 2021-22, your Company's total Wind Energy Generation Capacity has now gone up to 171.45 MW. Your Company has already installed 35 MW Solar Power Projects for captive use with an aggregate renewable energy capacity of 206.45 MW & 640 kW (AC) Floating Solar Power Plant on the reservoir of captive power plant & 220 kW (AC) Solar Roof top Installations at Dahej Complex.

Dispute with Delhi Jal Board

An investigation was conducted by the Director General of the Competition Commission of India (CCI) against your Company, for alleged contravention of the provisions of Section 3(1) read with 3(3)(d) of the Competition Act, 2002, in respect of sales of chemical products to Delhi Jal Board (DJB). The Competition Commission of India vide its order dated 05.10.2017 imposed penalty Rs.1.88 Crores. Your Company had filed an Appeal before the

NCLAT Challenging the order of the CCI. The Hon'ble NCLAT through its order dated 04.12.2017 granted stay on the operation of the impugned order of the CCI subject to a deposit of 10% of the penalty amount. The Delhi Jal Board has filed its Reply to the Appeal. Your Company has also filed its Rejoinder to the Reply of the DJB. Your Company had submitted convenience compilation and Note of Submission before NCLAT. The Delhi Jal Board had also submitted their Note of Submission. Your Company believes that it had not indulged in any such activity.

Settlement of Dispute with Operational Creditor

Based on the settlement arrived between the Operational Creditor and your Company, the Operational Creditor filed the Withdrawal Application before the Hon'ble NCLT, which was disposed off as withdrawn during the year. Further, your Company had also withdrawn the Civil Suit filed against the Operational Creditor before the Hon'ble Court of Vadodara as a part of settlement agreement.

ECB LOAN

To part finance the cost of the expansion, your Company has from time to time availed following financial assistance by way of External Commercial Borrowing (ECB) instead of Rupee Term Loan with a view to minimize the interest outgo. These ECB Loans are not hedged, there being natural hedge available due to exports and considering low risk profile of your Company :

1. ECB loan of US \$ 30 Million equivalent to Rs.190.20 crores from The Hongkong and Shanghai Banking Corporation Limited (HSBC Bank) in F.Y. 2015-16.
2. ECB loan of US \$ 20 Million equivalent to Rs.133.25 crores from ICICI Bank Limited in F.Y.2016-17.
3. ECB loan of US \$ 68.70 Million equivalent to Rs.500.22 crores (Rs.362.35 Crores in F.Y. 2020-21 and Rs 137.87 Crores in F.Y. 2021-22) Crores from State Bank of India.

RISK MANAGEMENT

Your Company has constituted Internal Risk Management Committee comprising of Senior Executives of your Company who are heading respective departments viz. Finance, Manufacturing, Marketing, Purchase, Project, Safety, Information Technology, HR, Secretarial and Legal functions. The Managing Director is the Chairman of the Internal Risk Management Committee. The Internal Risk Management Committee reports to the Managing Director and the risks identified by the said Committee along with proposed mitigation actions are discussed periodically on quarterly basis with the Managing Director.

Your Company has constituted the Risk Management Committee of Directors w.e.f. 11th February, 2016. Shri Rajiv Lochan Jain has been appointed as the Chairman of the said Committee w.e.f. 28th September, 2018. As on 31st March, 2022, below are the Members of the Risk Management Committee:

1. Shri Rajiv Lochan Jain, Chairman;
2. Shri S B Dangayach;
3. Shri Nitin Shukla; and
4. Shri Harshad R Patel, IAS.

The said Risk Management Committee was renamed as "Risk Management-cum-Safety Committee" w.e.f. 10th November, 2016 by the Board. The existing Internal Risk Management Committee of Senior Executives of your Company continues to function. Out of the various risks identified by the Internal Risk Management Committee, the Audit Committee has identified certain critical risks, which are reviewed by the Risk Management-cum-Safety Committee, the Audit Committee and by the Board of Directors. A Report on the steps taken to mitigate those critical risks is also submitted to the Risk Management-cum-Safety Committee, Audit Committee and the Board of Directors.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

Your Company has in place adequate internal financial controls commensurate with the size and nature of its business. Your Company periodically reviews the internal financial controls in the light of new statutes, changes in business models, adoption of new technology solutions and suggestions for improvements received from employees. During the year, such controls were tested and no reportable material weakness in the design or operation was observed.

For all amendments to Indian Accounting Standards (Ind-AS) and the new standards notified, your Company carries out a detailed analysis and presents the impact on accounting policies, financial results including revised disclosures to the Audit Committee. The Approach and changes in policies are also validated with the Statutory Auditors.

Your Company has a stated process and periodicity for physical verification of its inventory and fixed assets. Any variances are analysed and accounted post necessary approvals.

Your Company gets its financial statements reviewed every quarter by its Statutory Auditors. The accounts of GNAL are audited and certified by their Statutory Auditors for consolidation.

None of the auditors of the Company have reported any fraud as specified under second proviso of section 143 (12) of the Companies Act, 2013 including any statutory modifications or re-enactments thereof for the time being in force.

OUTLOOK

Your Company deals in marketing of Caustic Soda (Lye, Flakes & Prills), Liquid Chlorine, Hydrochloric Acid, Chloromethanes, Hydrogen Peroxide, Anhydrous Aluminum Chloride, Caustic Potash (Lye & Flakes), Potassium Carbonate (Powder & Granules), Phosphoric Acid, Poly Aluminum Chloride (various grade), Chlorotoluene, Sodium Chlorate, Chlorinated Paraffin etc. All the Plants are integrated in such a way that, part of finished product of

one plant is consumed as a raw material in other plant to produce further value added products.

Your Company, thus, enjoys some leverage over its competitors because of its forward integration philosophy. As a value addition to Hydrochloric Acid, we had commissioned Poly Aluminum Chloride (PAC) at our Vadodara (Coelho) Complex and therefore, we are able to capture sizable domestic market for various grades of PAC. The export of PAC (Powder) has also been increased, wherein realisations are promising.

The production of Stable Bleaching Powder (SBP) has been maximized, as a value addition to Chlorine at Dahej Complex. Because of the quality, consistent efforts for branding our SBP against existing brands and regional penetration in North & South market, we are successful in selling SBP among various segments like Water Treatment plants, Disinfection, Aquaculture etc., across India.

Moreover, additional capacity of Chloromethanes Plant at Vadodara is now on-stream towards captive consumption as well as value addition for Chlorine. We are successful in seizing the additional market for additional availability of MDC & Chloroform.

In addition to this, captive consumption of Hydrogen Gas is maximized through expanded Hydrogen Peroxide Plant, which is also fetching additional revenue.

Further, your Company has successfully optimized its Sodium Chlorate Plant at Dahej, which finds applications primarily in Paper & Pulp Industry for "Elemental Chlorine Free Bleaching".

Gujarat is predominantly an industrial state, which contains a number of large, medium & small business units in the Chemical, Petrochemical, Plastics, Textile, Fertilizer and other Industries. As part of market development, the emphasis is to interact with customers and develop new market for the products. Providing prompt after sales service as & when required is part of this strategy and this helps your Company to increase its volume especially for new products.

GACL is also exporting many of its products viz. Caustic Soda Flakes, Caustic Soda Prills, Potassium Carbonate, Potassium Hydroxide Flakes, Hydrogen Peroxide, Phosphoric Acid, liquid Chlorine, Aluminum Chloride, PAC, Hydrochloric Acid and CPW to Europe, West Asia, South-East Asia, Africa, Middle-East/Far East, SAARC countries etc.

Your Company is facing import threat and dumping of various products at low prices, which affects its capacity utilization, prices etc. and is pro-actively taking corrective action for imposition of Anti Dumping Duty within the WTO guidelines.

As, approx. 60% of the total production capacity of India is located in Western region, it has been observed that - there is 10-15% surplus supply available than the actual current demand in the region.

In order to cater the market of Eastern India, we have

successfully executed supplies of Caustic Soda Lye to M/s. National Aluminium Company Limited (NALCO) and M/s. Vedanta Limited, M/s. Utkal Alumina International Ltd in the tune of approx. 64919.70 MT respectively and in addition to this, we have exports approx. 13785 MT to bridge the demand-supply gap in Western India during Financial Year 2021-22.

The Ministry of Chemicals and Fertilizers, Department of Chemicals and Petrochemicals vide Order dated 15th June 2021 issued the Ortho Phosphoric Acid (Quality Control) Order, 2021 ("Order"). As per the said Order, your Company's product viz., Ortho Phosphoric Acid has been covered under the compulsory BIS certification under Indian Standard IS 798 : 2020 and should bear the Standard Mark under a licence from the Bureau of Indian Standards as per the Bureau of Indian Standards (Conformity Assessment) Regulations, 2018. Your Company's product i.e. Ortho Phosphoric Acid has been granted License by Bureau of Indian Standards, with effective from 24th November 2021. GACL is the first Indian Company to get license for Ortho Phosphoric Acid under this Compulsory Registration Scheme.

FOREIGN EXCHANGE EARNINGS AND OUTGO

GACL has taken pro-active approach for various activities related to increase Export volume, revenue and the development of new export markets for existing & new products.

In the current Financial Year also, your company targets at wider markets for export of various products with the help of company's accreditation of IS/ISO 9001, 14001, 18001 & 50001 as also registration of Benzyl Alcohol with 'REACH' while for Poly Aluminium Chloride registration have been made with NSF International, USA.

The details of foreign exchange earnings and outgo during the Financial Year 2021-22 are part of Board's Report at Annexure - I.

SAFETY & ENVIRONMENT

Our commitment to safety and preservation of environment has been encompassed in our "Quality, Health, Safety, Environment and Energy (QHSE En) Policy".

Your Company has implemented elaborate Environment Management System (EMS), Quality Management System (QMS), Occupational Health & Safety Management System (OH&S) and Energy Management System (EnMS) and has embarked on continual improvement. TUV(India) Pvt. Ltd. has granted ISO 9001: 2015, ISO 14001: 2015, ISO 45001: 2018 and ISO 50001: 2018 Integrated Management System Certificates to your Company.

Your Company has continued its emphasis on safety awareness not only for its employees and contract labourers but also for customers handling our products and community in neighbourhood of our plants. Your Company regularly organizes public awareness programs in surrounding villages emphasizing the importance of safety and focusing on industrial hazards. Safety awareness programme for

the employees as well as for contract workers are also organized regularly. Your Company has also adopted a unique concept of "Plant Healthiness Check-up" to identify and address areas for improvement of the manufacturing facility.

Your Company has also its Emergency Response Plan (ERP) system to minimize effect of any Emergency situations. The ERP is also frequently reviewed and updated by considering various Maximum Credible Scenarios. Preparedness and response to this ERP is evaluated periodically by conducting various Mock-drills. Your Company regularly conducts safety audit through third-party.

Adequate steps have been taken for Pollution Control, Green Belt Development etc. besides due compliance with statutory requirements for the protection of environment. At the landfill site for our Vadodara Complex, green belt has been developed and maintained in 101171 sq. mts. of land. Your Company has also developed and maintained about 24000 sq. mts. green area inside the Plant area. In the field of water conservation, GACL has installed wastewater recycling RO Plant for converting wastewater into reusable water. Daily 400 to 500 M³ of wastewater is treated and converted to reusable water which is recycled back to the Plant.

In Dahej Complex, large area has been covered by development and maintenance of green belt, landscaping, flora & fauna, rainwater harvesting and natural ponds. Your Company has installed facility for recycling part of its liquid effluent stream, using ZLD principle in Dahej Complex. Your Company has undertaken water conservation by channelizing Cooling Tower Water Spillage, treated sewage and drip irrigation. Nearly 24,000 nos. of trees have been planted and 54.4-acre green belt developed.

Your Company regularly sends hazardous waste for co-processing to provide AFT (Alternate Fuel) and Raw Material for Cement Industries via pre-processing through third party.

The canteen and garden waste is being converted into organic manure through in-house vermi-composting facility on regular basis at both the Complexes.

GACL is one of the Promoters of Vadodara Enviro Channel Limited (VECL). VECL was formed by various nearby industries for the purpose of safe discharge of treated effluent in sea. Thus, entire treated liquid effluents of Caustic Soda & Coelho Complex are being discharged through VECL.

Gujarat Pollution Control Board (GPCB) had issued a closure direction to VECL under The Water Act 1974. VECL has submitted compliance report to GPCB vide letter dtd. 14.04.2022. No adverse comment is received from GPCB in the matter so far.

CORPORATE SOCIAL RESPONSIBILITY

During the year under review, your Company has continued to fulfill its Corporate Social Responsibilities to enhance Human Development Index (HDI) by undertaking thematic activities viz. (a) Promotion of Education and related activities

(b) Care for Special Children (c) Healthcare, Hygiene and Sanitation (d) Livelihood and skill development activities (e) Art, Culture and Heritage (f) Water Conservation and Environment related activities.

Promoting inclusive growth has been a priority for GACL from both a social and business perspective. Your Company strives to make a difference to its customers, to the society and to the nation's development directly through its products and services, as well as through its development initiatives and community outreach.

During the Financial Year 2021-22, your Company had carried out various CSR activities. For details on various CSR activities carried out during the Financial Year 2021-22, kindly refer Annexure-2 of Board's Report i.e. Annual Report on CSR activities.

MATERIAL DEVELOPMENT IN HUMAN RESOURCES

Harnessing the incredible power of chemistry & people, GACL has embarked on a mission to produce the crème de la crème of chemical products in the country along with eco-friendly technology that provides value to the Industrial productions and common lives every day. Your Company's Human Resources Department identifies itself as the Process Department of People, it formulates strategies, executes human resource policies and practices which directly contribute to enhancing employee competencies and behaviours which would help Company reach greater heights.

Today all organizations are struggling to deal with external pressures such as globalization, aggressive competition and the increasing pace of change. This is compounded by internal pressures to lower costs, ability to strategize effectively, demonstrate business impact and maintain accountability for results. The only way to counter all of this is by developing a talent and leadership pool that acts as a path paver for achieving greater results. For this, your company has Succession Planning in place for its Senior Management Personnel.

As the organization gets older, clock begins to tick for the old generation of employees to retire and a new generation of employees to step in. This comes with a lot of challenges — along with that of retention — as the Nextgen performers are eager to expand their horizons and enhance their capabilities. Hence, we at GACL have developed an indigenous platform of Learning Management System (LMS), customised to cater organisational needs for skill development through upskilling and reskilling at all levels. This platform provides knowledge sharing opportunities from experienced technocrats and enables young entrants to gain life-long learning opportunities with innovation.

'Welfare of each is bound up in the welfare of all'. We at GACL see to it that our policies reach not only the employees but their families as well. We have one of the best of Medical schemes, such as Covid welfare facility, Children education fund, Post-retirement Medical Insurance, Housing Loan Insurance, Extra leave & Flexi leave benefit

for Maternity and so on for all category of employees. Our separation benefits are the most lucrative that ensures social security beyond statutes. GACL is one family when it comes to Welfare & Wellness.

GACL HR operates in allyship at workplace, for every employee-oriented processes there is a committee consisting of members from all category of employees from helpers to Executive Director level to collaborate and maintain harmonious Industrial Relations.

16. Commodity Price Risk or Foreign Exchange Risk and Hedging Activities:

Risk Management Policy of the listed entity with respect to commodities including through hedging:

During the year ended March 31, 2022, the Company has not hedged the Foreign Currency. In order to mitigate the Forex Risk, the Company has opened Exchange Earners' Foreign Currency Account (EEFC) US Dollar account as per RBI Guidelines to deposit the export earnings in the said account and to utilize the same for making US Dollar repayments towards interest and principal amount of ECB Loans. This mitigates the risk of volatility of INR

vis-à-vis USD. The Company strives to increase USD exports, so as to generate sufficient reserves of USD in this account to meet repayment obligations.

The Company has adequate risk assessment and minimization system in place including for commodities. The Company does not have material exposure of any commodity and accordingly, no hedging activities for the same are carried out. Therefore, there is no disclosure for offer in terms of SEBI circular no. SEBI/HO/CFD/CMD1/CIR/P/2018/0000000141 dated November 15, 2018.

Details of foreign currency transactions are disclosed in Note Nos. 2.7,17,37.5 and 42 to the Financial Statements.

INDEPENDENT AUDITORS' REPORT

To The Members of
Gujarat Alkalies and Chemicals Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **Gujarat Alkalies and Chemicals Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and notes to the standalone financial statements including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and total comprehensive income (comprising of profit and other comprehensive income), changes in

equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of these standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Information Other than the Standalone Financial Statements and Auditors' Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Management Discussion and Analysis, Corporate Governance Report and Shareholder's Information but does not include the standalone financial statements and our auditors' report thereon. The above-referred information is expected to be made available to us after the date of this audit report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances and the applicable laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations,

or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also :

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matters or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in Annexure "A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT

The annexure referred to in our Independent Auditors' Report to the members of **Gujarat Alkalies and Chemicals Limited** ("the Company") on the standalone financial statements for the year ended March 31, 2022, we report that:

- i. In respect of the Company's Property, Plant and Equipment
 - a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment ("PPE");
 - (B) The Company has maintained proper records showing full particulars of intangible assets.
 - b) The Company has a program of verification of fixed assets to cover all the items in a phased manner over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - c) According to the information and explanations given to us and the records examined by us and based on the examination of the registered sale deed / transfer deed / conveyance deed provided to us, we report that, the title deeds,

comprising all the immovable properties of land and buildings which are freehold, are held in the name of the Company as at the balance sheet date. In respect of immovable properties of land and buildings that have been taken on lease and disclosed as fixed asset in the financial statements, the lease agreements are in the name of the Company, where the Company is the lessee in the agreement.

- d) The Company has not revalued its PPE (including Right of Use Assets) or intangible assets or both during the year, and hence reporting under this clause of the Order is not applicable to the Company;
- e) According to the information and explanations given to us no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules thereunder, hence disclosure in its financial statements is not required;
- ii. In respect of Inventories:
 - a) The Inventories except for goods-in-transit have been physically verified by the management during the year and in our opinion, the coverage and procedure for such verification is reasonable. As

explained to us, there were no discrepancies of 10% or more in the aggregate for each class of inventory on physical verification of inventory as compared to the book records.

- b) According to the information and explanations given to us, the company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks on the basis of security of current assets and the quarterly returns or statements filed by the company with such banks are in agreement with the books of accounts of the Company.
- iii. In respect of Investments made, guarantee or security provided or grant of loans and advances in the nature of loans, secured or unsecured to companies, firms, Limited liability partnerships or any other parties :

- a) In our opinion and according to the information and explanations given to us, the Company has granted loans or provided advances in the nature of loans during the year to the following entities:

Particulars	Amount (Rs. in Lacs)
Aggregate amount granted/ provided during the year:	
-Joint Venture	Nil
-Others	7,500
Balance outstanding as at balance sheet date in respect of above cases:	
-Joint Venture	Nil
-Others	5,000

The Company has not provided any guarantee or security to any entity during the year.

- b) The Investments made and the terms and conditions of the grant of loans and advances in the nature of loans are not prima facie prejudicial to the interest of the Company.
- c) There is no stipulation for payment of principal amount of loan and are repayable on demand. However the payment of interest is regular.
- d) Since there is no stipulation for payment of principal amount of loan, reporting for overdue

amount for more than ninety day under clause iii (e) and (f) of the Order is not applicable.

- e) The company has granted loans and advances in the nature of loans repayable on demand and without specifying any terms or period of repayment to related parties as defined in clause (76) of section 2 of the Companies Act, 2013, aggregating to Rs.5,000 lacs, percentage thereof to total loan is 96%.
- iv. The Company has not given any loans, investments, guarantees or security covered under Section 185 of the Act. In respect of the investments made, in our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Act.
- v. According to the information and explanations given to us, the Company has not accepted any deposits or amounts which are deemed to be deposits during the year from the public and consequently, the directives issued by Reserve Bank of India, the provisions of sections 73 to 76 of the Act and rules framed there under are not applicable to the Company.
- vi. We have broadly reviewed the records maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under sub-section (1) of section 148 of the Companies Act, 2013 and are of the opinion that prima facie the prescribed records have been made and maintained. We have, however, not made a detailed examination of the records with a view to determining whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us, the Company has been regular in depositing with appropriate authorities undisputed statutory dues, including Goods and Services Tax, provident fund, employee's state insurance, income-tax, value added tax, cess and other material statutory dues applicable to it. Further, no undisputed amounts payable in respect of Goods and Services Tax, provident fund, employee's state insurance, income tax, value added tax, cess and any other statutory dues were in arrears, as at March 31, 2022, for a period of more than six months from the date they become payable.
- (b) Statutory Dues which have not been deposited on account of any dispute as on March 31, 2022 are as follows:

(Rs in lakhs)

Name of Statute	Nature of Dues	Forum where the Dispute is Pending	Period to which the Amount Relates	Amount Involved	Amount Unpaid

ANNEXURE “B” TO THE INDEPENDENT AUDITORS’ REPORT

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of **Gujarat Alkalies and Chemicals Limited** on the standalone financial statements of even date)

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act.

We have audited the internal financial controls with reference to standalone financial statements of **Gujarat Alkalies and Chemicals Limited** (“the Company”) as of March 31, 2022, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the, “Guidance note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and if such

controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors’ judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A Company’s internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error

or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established

by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

Notes forming part of the Financial Statements

1. GENERAL INFORMATION

Gujarat Alkalies and Chemicals Limited (“the Company”) is a multi-product chemical manufacturing Company, having various products in its basket and is one of the leading manufacturer of Caustic Soda Lye.

The Company having CIN L24110GJ1973PLC002247 is a public limited company incorporated and domiciled in India and has its Registered Office at P. O. Ranoli – 391350, District Vadodara, Gujarat, India. The equity shares of the Company are listed on the BSE Limited and National Stock Exchange of India Limited.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1. Statement of Compliance

The standalone financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified under Section 133 of Companies Act, 2013 (the “Act”) read with Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act as amended from time to time.

2.2. Application of New Indian Accounting Standard

All the Indian Accounting Standards issued and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are authorized have been considered in preparing these financial statements.

The following standards / amendments to standards have been issued and will be effective from 1st April 2022. The Company is evaluating the requirements of these standards, improvements and amendments and has not yet determined the impact on the financial statements.

Indian Accounting Standard (Ind AS) 103 – Business Combinations – Qualifications prescribed for recognition of the identifiable assets acquired and liabilities assumed, as part of applying the acquisition method – should meet the definition of assets and liabilities in the Conceptual Framework for Financial Reporting under Ind AS (Conceptual Framework) issued by the ICAI at the acquisition date.

Modification to the exceptions to recognition principle relating to contingent liabilities and contingent assets acquired in a business combination at the acquisition date.

Indian Accounting Standard (Ind AS) 109 – Financial Instruments – Modification in accounting treatment of certain costs incurred on derecognition of financial liabilities.

Indian Accounting Standard (Ind AS) 16 - Property, Plant and Equipment – Modification in treatment of excess of net sale proceeds of items produced over the cost of testing as part of cost of an item of property, plant, and equipment.

Indian Accounting Standard (Ind AS) 37 - Provisions, Contingent Liabilities and Contingent Assets – Modifications in application of recognition and measurement principles relating to onerous contracts.

2.3. Basis of Preparation of financial statements

The financial statements have been prepared, under the historical cost convention, on the accrual basis of accounting except for certain assets and liabilities which are measured at fair value/amortized cost/ present value at the end of each reporting period as explained in the accounting policies set out below. These accounting policies have been applied consistently over all the periods presented in these financials statements.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

2.4. Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgements and the use of assumptions in these financial statements have been disclosed in notes below. Accounting estimates could change from period to period. Actual results could differ from these estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and if material, then effects are disclosed in the notes to the financial statements.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

2.5. Revenue Recognition

2.5.a. Sale of Goods :

The Company derives Revenue primarily from sale of manufactured and traded products being “Chemicals”.

Revenue from the sale of products is recognised on satisfaction of performance obligation upon transfer of control of promised products to customers in an amount that reflects the consideration the Company expects to receive in exchange of those products.

The performance obligation to transfer each distinct product consists of supplying the product to a named destination, handling charges and packing charges.

The Company accounts for discounts and incentives to customers as a reduction of revenue based on the proportionate allocation of the discounts / incentives to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount / incentive. Also, when the level of discount varies with increase in level of revenue transactions, the Company recognizes the liability based on its estimate of the customer’s future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

The Company does not expect to have any contracts where the period between the transfer of the promised goods to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction price for the time value of money.

Sale of products excludes amounts of indirect taxes on sales.

2.5.b. Dividend and interest income :

Dividend income from investments is recognised when the shareholder’s right to receive the payment has been established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on time basis, by reference to the principal outstanding and at the effective interest rate applicable.

2.5.c. Other Operating Income and Other Income :

Revenue with respect to Other Operating Income

and Other Income including insurance and other claims are recognised when a reasonable certainty as to its realisation exists.

2.6. Leasing

The Company as a Lessee:

The Company’s lease asset class primarily consist of leases for immovable properties. The company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if there is an explicit or implicit identified asset in the contract and Customer controls the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the company assesses whether: (1) the contract involves the use of an identified asset (2) the company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the company has the right to direct the use of the asset.

At the date of commencement of the lease, the company recognizes a right-of-use asset (“ROU”) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

2.7. Foreign Currencies

2.7.a. Functional Currency :

The functional currency of the Company is the Indian rupee. These financial statements are presented in Indian rupees (rounded off to lakhs)

2.7.b. Transactions and translations :

In preparing the financial statements, transactions in currencies other than the Company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. The date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) is the date on which the Company initially recognises the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

2.8. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences arising from foreign currency borrowings to the extent regarded as an adjustment to the interest costs. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

2.9. Employee Benefits

2.9.a. Short term Employee Benefits :

All employee benefits payable wholly within twelve months of rendering the services are classified as short term employee benefits. Benefits such as salaries, wages, etc. and the expected cost of bonus, Ex-gratia, Leave Travel Allowance, Reimbursement of Medical Expenses, Personal Accident Policy, Deposit Linked Insurance Policy are recognised, undiscounted in the period in which the employee renders the related services.

2.9.b. Post-Employment Benefits :

2.9.b.1. Defined Contribution Plan :

The Company's contribution paid/payable during the year to Provident Fund, Superannuation Fund and other welfare funds are considered as defined contribution plans. The Contribution paid/ payable under these plans are recognised in the Statement of Profit and Loss during the period in which the employee renders the services. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

2.9.b.2. Defined Benefit Plans :

The Gratuity Scheme managed by Life Insurance Corporation of India through a Trust is considered as defined benefit plan. The present value of the obligation is determined based on actuarial valuation being carried out at each reporting date using the Projected Unit Credit Method.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

Actuarial gains and losses are recognised immediately in other comprehensive income.

Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the curtailment or settlement occurs.

Past service cost is recognized immediately to the extent that the benefits are already vested and otherwise it is amortized on straight-line basis over the remaining average period until the benefits become vested.

Interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets.

The defined retirement benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligation as reduced by plan assets.

2.9.b.3. Long term Employee Benefits :

The obligation for long term employee benefits such as long term compensated absences, long service awards, etc. is recognised in the same manner as in the case of defined benefit plans as mentioned in (b) (ii) above except that the actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.

2.10. Income Taxes

Income tax expense represents the sum of current tax and deferred tax.

2.10.a. Current Tax :

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'Profit Before Tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible in accordance with applicable tax laws. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.10.b. Deferred Tax :

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, the carry forward of unused tax losses and the carry forward of unused tax credits to the extent that it is probable that taxable profits will be available against which these can

be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.10.c. Current and Deferred Tax for the Year:

Current and deferred tax are recognised in the statement of profit and loss, except when they relate to items that are recognised in Other Comprehensive Income or directly in equity, in which case, the current and deferred tax are also recognised in Other Comprehensive Income or directly in equity respectively.

2.11. Property, Plant and Equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of PPE comprises of its purchase price or its construction cost (net of applicable tax credit, trade discount and rebate if any), Exchange rate variations attributable to the assets and any cost directly attributable to bring the asset into the location and condition necessary for it to be capable of operating in the manner intended by the management and initial estimate of decommissioning costs. Direct costs are capitalized until the asset is ready for use and includes borrowing cost capitalised in accordance with the Company's accounting policy.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

Depreciation method, Estimated Useful lives and residual value

The Company depreciates property, plant and equipment over their estimated useful lives using the straight line method. The estimated useful lives of the assets are as follows:

Asset	Useful Life
Buildings	20-60 years
Plant and Equipment	10-40 Years
Office Equipment	3 years
Furniture and Fixtures	5-10 years
Vehicles	8-10 years

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. The useful life as prescribed under Schedule II of the Companies Act, 2013 have been followed except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating condition of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.:

- Remembraning of Membrane cell elements-4 years
- Recoating of Anode and Cathode membrane cell elements- 8 years
- Leasehold land and equipment is amortised over the duration of the lease.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under Other Non-Current Assets and the cost of the assets not ready for intended use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from

the financial statements upon sale or retirement of the asset and the resultant gains or losses which are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

2.12. Intangible Assets

Intangible Assets acquired separately:

Intangible assets with finite useful life acquired separately, are recognized only if it is probable that future economic benefits that are attributable to the assets will flow to the enterprise and the cost of assets can be measured reliably. The intangible assets are recorded at cost and are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Amortisation is recognised on a straight-line basis over their estimated useful lives from the date they are available for use. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Subsequent expenditures are capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

Intangible assets are derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset, and recognised in the Statement of Profit and Loss when the asset is derecognised.

RESEARCH AND DEVELOPMENT

Expenditure on research is recognised as an expense when it is incurred. Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognised as an expense when it is incurred.

Useful Lives of Intangible Assets :

Estimated Useful lives of the Intangible assets are as follows:

Intangible Asset	Useful Life
Capitalised Development	5 Years
Computer Software	8 Years

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

2.13. Impairment of Tangible and Intangible Assets other than Goodwill

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If such assets are considered to be impaired, the impairment is recognized in the Statement of Profit and Loss and is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years. After a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

2.14. Inventories

Inventories are stated at the lower of cost and net realisable value after providing for obsolescence, if any. Net realisable value represents the estimated selling price for inventories in the ordinary course of business less all estimated costs of completion and estimated costs necessary to make the sale. Cost of inventories comprises of cost of purchase (net of recoverable taxes), cost of conversion and other costs including manufacturing overheads incurred in bringing them to their respective present location and condition. Raw materials and other supplies held for use in production of finished products are not

written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realizable value.

Inventory cost formula is as under :

Inventories	Basis of Valuation and Cost Formula
Raw material	Landed cost at weighted average basis
Raw Material (Goods in transit)	At Cost on Basic Price
Work in Progress	Raw material, labour and appropriate proportion of manufacturing expenses and overheads as per stage of completion at weighted average.
Finished Goods (Including in Transit)	Raw material, labour and appropriate proportion of manufacturing expenses and overheads at weighted average.
Stores, spares, packing materials	Landed Cost Weighted average basis

2.15. Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). If the time value of money is material, Provisions are discounted using pre-tax discount rate and when discounting is used, increase in the provision with the passage of time is recognised as a finance cost in the statement of Profit and Loss account.

A contingent liability is (a) a possible obligation that arises from past events and whose existence

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or (b) a present obligation that arises from past events but is not recognised because (i) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or (ii) the amount of the obligation can not be measured with sufficient reliability.

Contingent liabilities are disclosed in the Financial Statements by way of notes to accounts, unless possibility of an outflow of resources embodying economic benefit is remote.

A contingent asset is a possible asset that arises from the past events and whose existence will be confirmed only by the occurrence or non- occurrence of one or more of uncertain future events not wholly within the control of the entity.

Contingent assets are disclosed in the Financial Statements by way of notes to accounts when an inflow of economic benefits is probable.

2.16. Financial Instruments

The Company determines the classification of its financial assets and liabilities at initial recognition. The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

Initial Recognition and Measurement:

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss, are added to or deducted from the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period.

Subsequent Measurement

2.16.a. Non-derivative financial instruments :

2.16.a.1. Cash and Cash equivalents :

The Company considers all highly liquid financial instruments, which are readily convertible into

known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

2.16.a.2. Financial assets carried at amortised cost :

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

2.16.a.3. Financial assets at fair value through Other Comprehensive Income (FVTOCI) :

A financial asset is subsequently measured at fair value through Other Comprehensive Income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in Other Comprehensive Income based on its business model.

On derecognition of such Financial assets, cumulative gain or loss previously recognised in Other Comprehensive Income is not reclassified from the equity to statement of Profit and Loss.

2.16.a.4. Financial assets at fair value through profit or loss (FVTPL) :

A financial asset which is not classified in any of the above categories are subsequently measured at fair value through profit or loss.

2.16.a.5. Investment in Joint Venture :

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The Company accounts for its investment in joint venture at cost.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

2.16.a.6. Financial liabilities :

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments. Interest bearing issued debt are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method.

2.16.a.7. Derecognition of financial instruments :

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. On derecognition of Financial assets (except as mentioned in 2.17.a.3), the difference between the carrying amount and the consideration received is recognised in the statement of Profit and Loss account. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

2.16.a.8. Offsetting Financial Instruments :

Financial assets and liabilities are offset and the net amount is presented in the Balance Sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

2.17. Share capital

Ordinary Shares :

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are recognized as a deduction from equity, net of any tax effects.

2.18. Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, which gives highest priority to quoted prices in active markets and the lowest priority to unobservable inputs.

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 — Valuation techniques for inputs other than quoted prices included within Level 1 that are observable for the asset or Liability either directly or indirectly.

Level 3 — Valuation techniques for inputs that are unobservable for the asset or liability.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.19. Impairment of Financial Assets

The Company recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets which are not measured at fair value through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised as an impairment gain or loss in the statement of profit and loss.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

entity expects to receive, discounted at the effective interest rate.

ECL are measured taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

For Trade receivables, the Company uses a provision matrix to measure lifetime ECL on its portion of trade receivables. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward looking estimates.

2.20. Earnings per share

Basic earnings per share is computed by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving the basic earnings per share and the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

2.21. Operating Segments

Operating segments are identified and reported taking into account the different risks and returns, the organization structure and the internal reporting systems. The Company operates in one reportable business segments i.e. "Chemicals".

2.22. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows are segregated into operating, investing and financing activities.

2.23. Current/non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current if it satisfies any of the following conditions:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current if it satisfies any of the following conditions:

- Expected to be settled in normal operating cycle
- Held primarily for the purpose of trading
- is due to be settled within twelve months after the reporting period
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash Equivalents. The Company has identified twelve months as its operating cycle.

2.24. Non-Current Assets held for Sale

Non-current assets or disposal groups are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset or disposal group is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification as held for sale, and actions required to complete the plan of sale should indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets or disposal groups classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

Property, plant and equipment and intangible assets are not depreciated or amortized once classified as held for sale.

The Company classifies Non-Current Assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use of the assets and actions required to complete such sale indicate that it is

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

unlikely that significant changes to the plan to sell will be made or that the decision to sell will be withdrawn. Also, such assets are classified as held for sale only if the management expects to complete the sale within one year from the date of classification.

Non-current assets or disposal groups classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

2.25. Critical accounting judgements, assumptions and Key sources of estimation uncertainty:

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities at the date of the financial statements. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Key source of judgments, assumptions and estimates in the preparation of the Financial Statements which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of useful lives of Property, Plant and Equipment, impairment, employee benefit obligations, provisions, provision for income tax, measurement of deferred tax assets and contingent assets & liabilities, Stores & Spares Written off.

2.25.a. Critical judgments in applying accounting policies

The following are the critical judgements, apart from those involving estimations (Refer note 2.25.b), that the Management have made in the process of applying the Company's accounting policies and that have the significant effect on the amounts recognized in the Financial Statements.

2.25.a.1. Determining whether an arrangement contain leases and classification of leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The company makes an assessment on the expected lease term on a lease-by-lease basis

and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

2.25.b. Key sources of estimates and assumptions

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may differ from these estimates.

2.25.b.1. Defined benefit obligation (DBO)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations being carried out at reporting date. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, Salary escalation rate, expected rate of return on asset and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

2.25.b.2. Contingent Liabilities and Assets

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal, contractor, land access and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

inherently involves the exercise of significant judgment and the use of estimates regarding the outcome of future events.

2.25.b.3. Allowance for impairment of trade receivables

The expected credit loss is mainly based on the ageing of the receivable balances and historical experience. The receivables are assessed on an individual basis assessed for impairment collectively, depending on their significance. Moreover, trade receivables are written off on a case-to-case basis if deemed not to be collectible on the assessment of the underlying facts and circumstances.

2.25.b.4. Impairment of non-financial assets

Evaluation for impairment requires use of judgment, estimates and assumptions.

The evaluation of applicability of indicators of impairment of assets requires assessment of external factors (significant decline in asset's value, significant changes in the technological, market, economic or legal environment, market interest rates etc.) and internal factors (obsolescence or physical damage of an asset, poor economic performance of the asset etc.) which could result in significant change in recoverable amount of the Property, Plant and Equipment.

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

2.25.b.5. Income taxes:

Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

2.25.b.6. Recognition of Deferred tax assets:

Deferred Tax Assets (DTA) are recognized for the unused tax losses/ credits to the extent that it is probable that taxable profit will be available against which the losses will be utilized. Management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

2.25.b.7. Useful lives and residual value of property, plant and equipment:

The Company reviews the useful life and residual value of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

2.25.b.8. Dismantling cost of property, plant and equipment:

The company estimates assets retirement obligation on estimate basis for property, plant and equipment. Estimation is done by the management considering size of the asset and its useful life in line with industry practices.

2.25.b.9. Stores and spares inventories:

The Company's manufacturing process is continuous and highly mechanic with wide range of different types of plant and machineries. The Company keeps stores and spares as standby to continue the operations without any disruption. Considering wide range of stores and spares and long lead time for procurement of it and based on criticality of spares, the Company believes that net realizable value would be more than cost.

2.25.b.10. Fair value of investments:

The Company has invested in the equity instruments of various companies. The valuation exercise of unquoted equity instruments carried out by the Company with the help of an independent valuer, etc. has estimated fair value at each reporting period based on available historical annual reports and other information in the public domain.

12 TRADE RECEIVABLES (Contd.)

12.1 Trade Receivables include overdue outstanding from various parties aggregating to Rs.1,322.42 lakhs, (Previous Year Rs.1,335.42 lakhs), for which the Company has taken legal steps for recovery of the outstanding dues and the management is hopeful of the recovery. However, cumulative provision of Rs. 1,322.42 lakhs (Previous Year Rs.1,335.42 lakhs) exists for such doubtful debts as on 31.03.2022.

The average credit period on sale of goods is 31 days. However, no interest is charged on Trade Receivables for delay in payment beyond 31 days from the date of the Invoice.

The credit limits for customers are set based on security deposits and bank guarantees. Limits attributed to customers are reviewed periodically.

The Company has used a practical expedient by computing the expected credit loss allowance for Trade Receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates are given in the provision matrix. The provision matrix at the end of the Reporting Period is as follows. :

Ageing :	Expected Credit Loss	
Particulars	As at 31.03.2022

37.3 Financial Risk Management Objectives

The Company's Corporate Treasury Function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Company through internal risk reports which analyse exposures by degree and magnitude of risks. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

Compliance with policies and exposure limits is reviewed internally on a continuous basis. The Corporate Treasury does not enter into any trade financial instruments, including derivative financial instruments and relies on natural hedge.

The Corporate Treasury Function monitors risks and policies implemented to mitigate risk exposures on a periodical basis.

37.4 Market Risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Company currently has not hedged any External Commercial Borrowings (ECBs). The Company performs an analysis of the impact of not hedging its ECBs. This has been done by comparing the actual cash outflows related to ECBs under current unhedged conditions in the past vis-a-vis the scenario of complete hedging of individual ECB on the disbursement day through quotes provided by the banks. Further, the Company parks its earnings in foreign currency in Exchange Earners Foreign Currency (EEFC) account and discharges its obligations in case of foreign currency loans out of the said account.

The Company's investments in listed and non-listed equity securities are susceptible to price risk arising from uncertainties about future value of the investment securities. The Company's non-current investment in equity shares are strategic investments and hence are considered as Fair Value through Other Comprehensive Income. The Company's Board of Directors reviews and approves all equity investment decisions.

37.5 Foreign Currency Risk Management

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters. Further, the Company parks its earnings in foreign currency in Exchange Earners Foreign Currency (EEFC) account and discharges its obligations in case of foreign currency loans and towards import obligations out of the said account.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities are restated at the end of each quarter. The same at the end of the reporting period are as follows :

37.5 Foreign Currency Risk Management (Contd.)

Foreign Currency Sensitivity Analysis

The Company is mainly exposed to US Dollar.

The following table details the Company's sensitivity to a 5% increase and decrease in the Rupee against the relevant foreign currencies. 5% is a sensitivity rate used when reporting foreign currency internally to the key management personnel and represents management's assessment of the reasonably possible changes in the foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in the foreign currency rates. A positive number below indicates an increase in profit or equity where the Rupee strengthens by 5% against the relevant currency. For a 5% weakening of the Rupee against the relevant currency, there would be a comparable impact on the profit or equity, and the balances below would be negative.

[Rs. in Lakhs]

Currency	Impact on profit or loss for the year		Impact on total equity as at the end of the reporting period	
	2021-22	2020-21	2021-22	2020-21
USD	3,037.48	2,277.71	1,974.55	1,480.65
GBP	(24.35)	15.53	(15.83)	10.10

CHF	(0.25)	-	(0.16)	-
JPY	-	(1.71)	-	(1.11)

37.6 Interest Rate Risk Management

The Company is exposed to interest rate risk because the Company borrows funds at floating interest rates. The risk is managed by the Company by monitoring the exchange rate on regular basis and also parking the export proceeds in the EEFC account which also provides a natural hedge for the outflows in foreign currency. Further, the Company performs an impact analysis of not hedging its ECBs. This has been done by comparing the actual cash outflows related to ECBs under current unhedged conditions in the past vis-a-vis the scenario of complete hedging of individual ECB on the disbursement day through quotes provided by the banks.

Interest Rate Sensitivity Analysis

The sensitivity analysis below have been determined based on the exposure to interest rates for instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year.

If the interest rates had been 50 basis points higher / lower and all other variables were held constant, the Company's profit before tax for the year ended would be impacted to the extent of Rs.56.28 Lakhs (Rs.87.41 lakhs for the year 2020-21).

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

37 FINANCIAL INSTRUMENTS (Contd.)

37.7 Credit Risk Management

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company is operating through network of dealers based at different locations. In order to ensure the security of receivables, the Marketing Department computes an exposure ratio for every dealer based on his past turnover, track record, etc. The same is overseen and approved by the Board. Further, the Company also collects bank guarantees / security deposits from the respective dealers. Regular monitoring of the receivables is undertaken by the Marketing Department and in case the limits are exceeded, an auto lock system is in place in the SAP system of the Company to stop further supplies to the concerned dealer till the amount outstanding is recovered. In case of new customers, the goods are supplied only against advance receipts. For the export made by the Company, the sales are backed by letters of credit or advance receipts. The internal risk management committee of the Company meets regularly to discuss the dealers and credit risks, measures taken to address them and the status and level of risk after the measures taken.

Domestic & Export trade receivables are secured to the extent of interest free security deposits and bank guarantees / letter of credit received from the customers amounting to Rs.5,275.36 Lakhs and Rs.4,792.44 Lakhs as at 31st March, 2022 and 31st March, 2021 respectively. (Refer Note No. 12 for Trade Receivables outstanding).

37.8 Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages its funds mainly from internal accruals. The liquidity risk is managed by maintaining adequate reserves and banking facilities, by continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities.

Liquidity and interest risk tables

The following tables detail the Company's remaining contractual maturity for its non derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

	a. 2) Investment in company engaged in the business of gas marketing - aggregate fair value of Rs.2,408.53	a. 2) Investment in company engaged in the business of gas marketing - aggregate fair value of Rs.2,126.31	Level 3	(Refer note below)	Discount factor, Sales Volume and Trading Margin	No Sensitivity analysis has been carried out as at 31.03.2022 on account of non-availability of data.
<p>Note - 36.9.1.1 - Discounted Free Cash flow method has been used to arrive at the enterprise value of the gas marketing business of the investee and the exploration and production assets are valued using price of recent investment / transaction (PORI) method and reserve multiple approach. Under DCF technique, the projected free cash flows from gas marketing business of the Company are discounted at the weighted average cost of capital and the sum of the present value of such free cash flows would represent the value of business. Under the reserve multiple method past transaction multiples of oil and gas companies is used to arrive at the valuation. The investee has various investments in subsidiaries / Other investments. Each of these subsidiary and Other investments have been separately valued using market price method, DCF method, CCM method and book value (NAV) method and applied the investee's stake percentage to arrive at the fair value of investee's investment. Under the market price method, the valuation is derived from the quoted market price of the share of the Company as at the valuation date. Under CCM Method, peer multiple for one or more comparable Companies is used. Under the NAV method, the valuation is derived by calculating the net assets value of the investee as at the valuation date.</p>

37 FINANCIAL INSTRUMENTS (Contd.)

37.9 Fair Value Measurements (Contd.)

37.9.1.1 The Company has invested in the equity instruments of various companies. However, the percentage of shareholding of the Company in such investee companies is very low and hence, it has not been provided with future projections including projected profit and loss account by those investee companies. Hence, the independent valuer appointed by the Company has estimated fair value based on available historical Annual Reports of such companies and other information as available in the public domain and is being relied upon. Since the future projections are not available, discounted cashflow approach for fair value determination has not been followed.

37.9.1.2 In case of some companies, there are no comparable companies valuations available. In light of no information available for future projections, capacity utilisation, commencement of operations, etc., the valuation is based on cost approach.

37.9.2 Fair value of the Company's financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required)

Except as detailed in the following table, the Company considers that the carrying amounts of financial assets and financial liabilities recognised in the financial statements approximate their fair values.

INDEPENDENT AUDITORS' REPORT

**To The Members of
Gujarat Alkalies and Chemicals Limited**

Report on the Audit of the Consolidated financial statements

Opinion

We have audited the accompanying Consolidated financial statements of **Gujarat Alkalies and Chemicals Limited** ("the Holding Company" or "the Company") and its jointly controlled entity (Holding Company and its jointly controlled entity together referred to as "the Group") which comprise the Consolidated Balance Sheet as at March 31, 2022, the Consolidated Statement of Profit and Loss including other comprehensive income, the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements")

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of report on separate financial statements and on the other financial information of the jointly controlled entity as referred to in the "Other Matter", the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2022, of

consolidated total comprehensive income (comprising of profit and other comprehensive income), consolidated changes in equity and their consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of these Consolidated financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
1	<p><u>Valuation of Investments (Unquoted) (Refer to note 6 and 37.9.1 to the Consolidated financial statements)</u> Investments in Equity and Securities Instruments (Unquoted) aggregates a significant amount of the Company's Total assets as at March 31, 2022. The Company measures its investments in Equity Instruments (Unquoted) at Fair Value through Other Comprehensive Income and its investment in Securities Instruments (Unquoted) at fair value through Profit and Loss as at the Balance Sheet date. Fair value is determined using valuation approach / methodology for which significant inputs are unobservable inputs (Level 3 inputs).</p>	<p><u>Principal Audit Procedures</u> Our audit procedures included:</p> <ol style="list-style-type: none"> 1) Evaluated and tested the design and operating effectiveness of the key controls implemented by the Company with respect to the valuation of Investments in Equity and Securities instruments (unquoted), inter alia controls around: <ol style="list-style-type: none"> a) periodic review by management of the risks of the valuation approach/ methodology; b) the verification and validation of unobservable inputs; c) selection and competence evaluation of external valuer; 2) Involved the Internal fair value specialist and: <ol style="list-style-type: none"> a) Assessed the reasonableness of the valuation approach / methodology and inputs used; b) Assessed the reasonableness of the valuation results determined by the external valuer.

Sr. No.	Key Audit Matter	How our audit addressed the Key Audit Matter
	The valuation approach / methodology adopted by the management in certain cases are single valuation methods and, in some cases, multiple valuation approaches, and hence involve significant judgment as regards the methods and inputs used.	Conclusion: Based on the procedures described above, we did not identify any material exceptions to the management's assertions and treatment, presentation, and disclosure of the subject matter in Consolidated financial statements..

Information Other than the Consolidated Financial Statements and Auditors' Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Management Discussion and Analysis, Corporate Governance Report and Shareholder's Information but does not include the Consolidated financial statements and our auditors' report thereon. The above-referred information is expected to be made available to us after the date of this audit report.

Our opinion on the Consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the Consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions necessitated by the circumstances and the applicable laws and regulations.

Responsibilities of Management and those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the presentation and preparation of these Consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act.

The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls,

that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are

appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Group incorporated in India have adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the disclosures, and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group, to express an opinion on the consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matters or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The consolidated financial statements also include the Holding Company's share of total assets of Rs. 40,884.49 lakhs as at March 31, 2022 and share of net loss of Rs. 221.74 lakhs for the year ended March 31, 2022, as considered in the consolidated financial statements, in respect of jointly controlled entity, whose financial statements have been audited by us.

Report on Other Legal and Regulatory Requirements

ANNEXURE “A” TO THE INDEPENDENT AUDITORS’ REPORT

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Gujarat Alkalies and Chemicals Limited on the Consolidated financial statements of even date)

Report on the Internal Financial Controls with reference to Consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act.

We have audited the internal financial controls with reference to Consolidated financial statements of **Gujarat Alkalies and Chemicals Limited** (“the Company”) as of March 31, 2022, in conjunction with our audit of the Consolidated financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its jointly controlled entity which is company incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to Consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the, “Guidance note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit

evidence about the adequacy of the internal financial controls with reference to Consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated financial statements included obtaining an understanding of internal financial controls with reference to Consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors’ judgement, including the assessment of the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to Consolidated financial statements.

Meaning of Internal Financial Controls with reference to Consolidated Financial Statements

A Company’s internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Consolidated financial statements

Because of the inherent limitations of internal financial controls with reference to Consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated financial statements to future

periods are subject to the risk that the internal financial control with reference to Consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its jointly controlled entity which is company incorporated in India have, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to Consolidated financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the

Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1. Statement of Compliance

The consolidated financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified under Section 133 of the Companies Act, 2013 (the “Act”) read with Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act as amended from time to time.

2.2. Application of New Indian Accounting Standard

All the Indian Accounting Standards issued and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) till the financial statements are authorized have been considered in preparing these financial statements.

The following standards / amendments to standards have been issued and will be effective from 1st April 2022. The Company is evaluating the requirements of these standards, improvements and amendments and has not yet determined the impact on the financial statements.

Indian Accounting Standard (Ind AS) 103 – Business Combinations – Qualifications prescribed

for recognition of the identifiable assets acquired and liabilities assumed, as part of applying the acquisition method – should meet the definition of assets and liabilities in the Conceptual Framework for Financial Reporting under Ind AS (Conceptual Framework) issued by the ICAI at the acquisition date.

Modification to the exceptions to recognition principle relating to contingent liabilities and contingent assets acquired in a business combination at the acquisition date.

Indian Accounting Standard (Ind AS) 109 – Financial Instruments – Modification in accounting treatment of certain costs incurred on derecognition of financial liabilities.

Indian Accounting Standard (Ind AS) 16 - Property, Plant and Equipment – Modification in treatment of excess of net sale proceeds of items produced over the cost of testing as part of cost of an item of property, plant, and equipment.

Indian Accounting Standard (Ind AS) 37 - Provisions, Contingent Liabilities and Contingent Assets – Modifications in application of recognition and measurement principles relating to onerous contracts.

2.3. Basis of Preparation of financial statements

The financial statements have been prepared, under the historical cost convention, on the accrual basis of accounting except for certain assets and liabilities which are measured at fair value/amortized cost/ present value at the end of each reporting period as explained in the accounting policies set out below. These accounting policies have been applied consistently over all the periods presented in these financials statements.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

2.4. Principles of Consolidation

2.4.a. Gujarat Alkalies and Chemicals Limited together with its Joint Venture is referred to as “the Group”.

2.4.b. The financial statements of the Joint Venture used in the consolidation is drawn up to the same reporting date as that of the holding company.

2.4.c. Interest in Joint Venture is accounted for using equity method, after initially recognising at cost in the consolidated balance sheet.

2.4.d. Under equity method, investments are initially recognised at cost and adjusted thereafter to recognise the Group’s share of the post - acquisition

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

profit or loss of the investee in the statement of profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividend received or receivable from joint venture is recognised as a reduction in the carrying amount of investment.

2.4.e. As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and appropriate adjustments are made to the financial statements of joint venture when they are used in preparing the consolidated financial statements that are presented in same manner as the holding company.

2.4.f. The Consolidated Financial Statement has been prepared in accordance with Ind AS-110 "Consolidated Financial Statement" and Ind AS-28 "Investment in Associates and Joint Venture".

2.4.g. The Consolidated Financial Statement includes result of 60% equity Joint Venture Company – GACL-NALCO Alkalies and Chemicals Private Limited.

2.4.h. The carrying amount of equity accounted investments are tested for impairment on reporting date.

2.5. Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgements and the use of assumptions in these financial statements have been disclosed in notes below. Accounting estimates could change from period to period. Actual results could differ from these estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and if material, then effects are disclosed in the notes to the financial statements.

2.6. Revenue Recognition

2.6.a. Sale of Goods :

The Company derives Revenue primarily from sale of manufactured and traded products being "Chemicals".

Revenue from the sale of products is recognised on

satisfaction of performance obligation upon transfer of control of promised products to customers in an amount that reflects the consideration the Company expects to receive in exchange of those products.

The performance obligation to transfer each distinct product consists of supplying the product to a named destination, handling charges and packing charges.

The Company accounts for discounts and incentives to customers as a reduction of revenue based on the proportionate allocation of the discounts / incentives to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount / incentive. Also, when the level of discount varies with increase in level of revenue transactions, the Company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

The Company does not expect to have any contracts where the period between the transfer of the promised goods to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction price for the time value of money.

Sale of products excludes amounts of indirect taxes on sales.

2.6.b. Dividend and interest income :

Dividend income from investments is recognised when the shareholder's right to receive the payment has been established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on time basis, by reference to the principal outstanding and at the effective interest rate applicable.

2.6.c. Other Operating Income and Other Income :

Revenue with respect to Other Operating Income and Other Income including insurance and other claims are recognised when a reasonable certainty as to its realisation exists.

2.7. Leasing

The Company as a Lessee:

The Company's lease asset class primarily consist

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

of leases for immovable properties. The company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if there is an explicit or implicit identified asset in the contract and Customer controls the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the company assesses whether: (1) the contract involves the use of an identified asset (2) the company has substantially all of the economic benefits from use of the asset through the period of the lease and (3) the company has the right to direct the use of the asset.

At the date of commencement of the lease, the company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized

cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

2.8. Foreign Currencies

2.8.a. Functional Currency :

The functional currency of the Company is the Indian rupee. These financial statements are presented in Indian rupees (rounded off to lakhs)

2.8.b. Transactions and translations :

In preparing the financial statements, transactions in currencies other than the Company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. The date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income (or part of it) is the date on which the Company initially recognises the non-monetary asset or non-monetary liability arising from the payment or receipt of advance consideration. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings.

2.9. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in the statement of profit and loss in the period in which they are incurred.

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences arising from foreign currency borrowings to the extent regarded as an adjustment to the interest costs. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

2.10. Employee Benefits

2.10.a. Short term Employee Benefits :

All employee benefits payable wholly within twelve months of rendering the services are classified as short term employee benefits. Benefits such as salaries, wages, etc. and the expected cost of bonus, Ex-gratia, Leave Travel Allowance, Reimbursement of Medical Expenses, Personal Accident Policy, Deposit Linked Insurance Policy are recognised, undiscounted in the period in which the employee renders the related services.

2.10.b. Post-Employment Benefits :

2.10.b.1. Defined Contribution Plan :

The Company's contribution paid/payable during the year to Provident Fund, Superannuation Fund and other welfare funds are considered as defined contribution plans. The Contribution paid/ payable under these plans are recognised in the Statement of Profit and Loss during the period in which the employee renders the services. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

2.10.b.2. Defined Benefit Plans :

The Gratuity Scheme managed by Life Insurance Corporation of India through a Trust is considered as defined benefit plan. The present value of the obligation is determined based on actuarial valuation being carried out at each reporting date using the Projected Unit Credit Method.

Actuarial gains and losses are recognised immediately in other comprehensive income.

Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the curtailment or settlement occurs.

Past service cost is recognized immediately to the

extent that the benefits are already vested and otherwise it is amortized on straight-line basis over the remaining average period until the benefits become vested.

Interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets.

The defined retirement benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligation as reduced by plan assets.

2.10.b.3. Long term Employee Benefits :

The obligation for long term employee benefits such as long term compensated absences, long service awards, etc. is recognised in the same manner as in the case of defined benefit plans as mentioned in (b) (ii) above except that the actuarial gains and losses are recognised immediately in the Statement of Profit and Loss.

2.11. Income Taxes

Income tax expense represents the sum of current tax and deferred tax.

2.11.a. Current Tax :

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'Profit Before Tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible in accordance with applicable tax laws. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.11.b. Deferred Tax :

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences, the carry forward of unused tax losses and the carry forward of unused tax credits to the extent that it is probable that taxable profits will be available against which these can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.11.c. Current and Deferred Tax for the Year:

Current and deferred tax are recognised in the statement of profit and loss, except when they relate to items that are recognised in Other Comprehensive Income or directly in equity, in which case, the current and deferred tax are also recognised in Other Comprehensive Income or directly in equity respectively.

2.12. Property, Plant and Equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of PPE comprises of its purchase price or its construction cost (net of applicable tax credit, trade discount and rebate if any), Exchange rate variations attributable to the assets and any cost directly attributable to bring the asset into the location and condition necessary for it to be capable of operating in the manner intended by the management and initial estimate of decommissioning costs. Direct costs are capitalized until the asset is ready for use and includes borrowing cost capitalised in accordance with the Company's accounting policy.

Depreciation method, Estimated Useful lives and residual value

The Company depreciates property, plant and equipment over their estimated useful lives using the straight line method. The estimated useful lives of the assets are as follows:

Asset	Useful Life
Buildings	20-60 years
Plant and Equipment	10-40 Years
Office Equipment	3 years
Furniture and Fixtures	5-10 years
Vehicles	8-10 years

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. The useful life as prescribed under Schedule II of the Companies Act, 2013 have been followed except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating condition of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.:

- Remembraning of Membrane cell elements-4 years
- Recoating of Anode and Cathode membrane cell elements- 8 years
- Leasehold land and equipment is amortised over the duration of the lease.

Advances paid towards the acquisition of property, plant and equipment outstanding at each Balance Sheet date is classified as capital advances under Other Non-Current Assets and the cost of the assets not ready for intended use before such date are disclosed under 'Capital work-in-progress'. Subsequent expenditures relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses which are measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised. Assets to

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

2.13. Intangible Assets

Intangible Assets acquired separately:

Intangible assets with finite useful life acquired separately, are recognized only if it is probable that future economic benefits that are attributable to the assets will flow to the enterprise and the cost of assets can be measured reliably. The intangible assets are recorded at cost and are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Amortisation is recognised on a straight-line basis over their estimated useful lives from the date they are available for use. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Subsequent expenditures are capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

Intangible assets are derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset, and recognised in the Statement of Profit and Loss when the asset is derecognised.

RESEARCH AND DEVELOPMENT

Expenditure on research is recognised as an expense when it is incurred. Expenditure on development which does not meet the criteria for recognition as an intangible asset is recognised as an expense when it is incurred.

Useful Lives of Intangible Assets :

Estimated Useful lives of the Intangible assets are as follows:

Intangible Asset	Useful Life
Capitalised Development	5 Years
Computer Software	8 Years

2.14. Impairment of Tangible and Intangible Assets other than Goodwill

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For

the purpose of impairment testing, the recoverable amount is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If such assets are considered to be impaired, the impairment is recognized in the Statement of Profit and Loss and is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years. After a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

2.15. Inventories

Inventories are stated at the lower of cost and net realisable value after providing for obsolescence, if any. Net realisable value represents the estimated selling price for inventories in the ordinary course of business less all estimated costs of completion and estimated costs necessary to make the sale.

Cost of inventories comprises of cost of purchase (net of recoverable taxes), cost of conversion and other costs including manufacturing overheads incurred in bringing them to their respective present location and condition. Raw materials and other supplies held for use in production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realizable value.

Inventory cost formula is as under :

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Inventories	Basis of Valuation and Cost Formula
Raw material	Landed cost at weighted average basis
Raw Material (Goods in transit)	At Cost on Basic Price
Work in Progress	Raw material, labour and appropriate proportion of manufacturing expenses and overheads as per stage of completion at weighted average.
Finished Goods (Including in Transit)	Raw material, labour and appropriate proportion of manufacturing expenses and overheads at weighted average.
Stores, spares, packing materials	Landed Cost Weighted average basis

2.16. Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). If the time value of money is material, Provisions are discounted using pre-tax discount rate and when discounting is used, increase in the provision with the passage of time is recognised as a finance cost in the statement of Profit and Loss account.

A contingent liability is (a) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or (b) a present obligation that arises from past events but is not recognised because (i) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation

or (ii) the amount of the obligation can not be measured with sufficient reliability.

Contingent liabilities are disclosed in the Financial Statements by way of notes to accounts, unless possibility of an outflow of resources embodying economic benefit is remote.

A contingent asset is a possible asset that arises from the past events and whose existence will be confirmed only by the occurrence or non- occurrence of one or more of uncertain future events not wholly within the control of the entity.

Contingent assets are disclosed in the Financial Statements by way of notes to accounts when an inflow of economic benefits is probable.

2.17. Financial Instruments

The Company determines the classification of its financial assets and liabilities at initial recognition. The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

Initial Recognition and Measurement:

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss, are added to or deducted from the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period.

Subsequent Measurement

2.17.a. Non-derivative financial instruments :

2.17.a.1. Cash and Cash equivalents :

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2.17.a.2. Financial assets carried at amortised cost :

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

2.17.a.3. Financial assets at fair value through Other Comprehensive Income (FVTOCI) :

A financial asset is subsequently measured at fair value through Other Comprehensive Income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in Other Comprehensive Income based on its business model.

On derecognition of such Financial assets, cumulative gain or loss previously recognised in Other Comprehensive Income is not reclassified from the equity to statement of Profit and Loss.

2.17.a.4. Financial assets at fair value through profit or loss (FVTPL) :

A financial asset which is not classified in any of the above categories are subsequently measured at fair value through profit or loss.

2.17.a.5. Financial liabilities :

Financial liabilities are subsequently carried at amortized cost using the effective interest method. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments. Interest bearing issued debt are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method.

2.17.a.6. Derecognition of financial instruments :

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. On derecognition of Financial assets (except as mentioned in 2.17.a.3), the difference between the carrying amount and the consideration received is recognised in the statement

of Profit and Loss account. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

2.17.a.7. Offsetting Financial Instruments :

Financial assets and liabilities are offset and the net amount is presented in the Balance Sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

2.18. Share capital

Ordinary Shares :

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are recognized as a deduction from equity, net of any tax effects.

2.19. Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, which gives highest priority to quoted prices in active markets and the lowest priority to unobservable inputs.

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Level 2 — Valuation techniques for inputs other than quoted prices included within Level 1 that are observable for the asset or Liability either directly or indirectly.

Level 3 — Valuation techniques for inputs that are unobservable for the asset or liability.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.20. Impairment of Financial Assets

The Company recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets which are not measured at fair value through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised as an impairment gain or loss in the statement of profit and loss.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive, discounted at the effective interest rate.

ECL are measured taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

For Trade receivables, the Company uses a provision matrix to measure lifetime ECL on its portion of trade receivables. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward looking estimates.

2.21. Earnings per share

Basic earnings per share is computed by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share is computed by dividing the profit after tax by the weighted average number of equity shares considered for deriving the basic earnings per share and the weighted average

number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

2.22. Operating Segments

Operating segments are identified and reported taking into account the different risks and returns, the organization structure and the internal reporting systems. The Company operates in one reportable business segments i.e. "Chemicals".

2.23. Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows are segregated into operating, investing and financing activities.

2.24. Current/non current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current if it satisfies any of the following conditions:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current if it satisfies any of the following conditions:

- Expected to be settled in normal operating cycle
- Held primarily for the purpose of trading
- is due to be settled within twelve months after the reporting period
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash Equivalents. The Company has identified twelve months as its operating cycle.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

2.25. Non-Current Assets held for Sale

Non-current assets or disposal groups are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset or disposal group is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such assets. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification as held for sale, and actions required to complete the plan of sale should indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets or disposal groups classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

Property, plant and equipment and intangible assets are not depreciated or amortized once classified as held for sale.

The Company classifies Non-Current Assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use of the assets and actions required to complete such sale indicate that it is unlikely that significant changes to the plan to sell will be made or that the decision to sell will be withdrawn. Also, such assets are classified as held for sale only if the management expects to complete the sale within one year from the date of classification.

Non-current assets or disposal groups classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

2.26. Critical accounting judgements, assumptions and Key sources of estimation uncertainty:

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities at the date of the financial statements. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of

assets or liabilities affected in future periods.

Key source of judgments, assumptions and estimates in the preparation of the Financial Statements which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of useful lives of Property, Plant and Equipment, impairment, employee benefit obligations, provisions, provision for income tax, measurement of deferred tax assets and contingent assets & liabilities, Stores & Spares Written off.

2.26.a. Critical judgments in applying accounting policies

The following are the critical judgements, apart from those involving estimations (Refer Note 2.26.b), that the Management have made in the process of applying the Company's accounting policies and that have the significant effect on the amounts recognized in the Financial Statements.

2.26.a.1. Determining whether an arrangement contain leases and classification of leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

2.26.b. Key sources of estimates and assumptions

Information about estimates and assumptions that have the significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may differ from these estimates.

2.26.b.1. Defined benefit obligation (DBO)

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations being carried out at reporting date. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, Salary

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

escalation rate, expected rate of return on asset and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

2.26.b.2. Contingent Liabilities and Assets

Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal, contractor, land access and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgment and the use of estimates regarding the outcome of future events.

2.26.b.3. Allowance for impairment of trade receivables

The expected credit loss is mainly based on the ageing of the receivable balances and historical experience. The receivables are assessed on an individual basis assessed for impairment collectively, depending on their significance. Moreover, trade receivables are written off on a case-to-case basis if deemed not to be collectible on the assessment of the underlying facts and circumstances.

2.26.b.4. Impairment of non-financial assets

Evaluation for impairment requires use of judgment, estimates and assumptions.

The evaluation of applicability of indicators of impairment of assets requires assessment of external factors (significant decline in asset's value, significant changes in the technological, market, economic or legal environment, market interest rates etc.) and internal factors (obsolescence or physical damage of an asset, poor economic performance of the asset etc.) which could result in significant change in recoverable amount of the Property, Plant and Equipment.

The Company assesses at each reporting date

whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or CGU's fair value less costs of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

2.26.b.5. Income taxes:

Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

2.26.b.6. Recognition of Deferred tax assets:

Deferred Tax Assets (DTA) are recognized for the unused tax losses/ credits to the extent that it is probable that taxable profit will be available against which the losses will be utilized. Management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

2.26.b.7. Useful lives and residual value of property, plant and equipment:

The Company reviews the useful life and residual value of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.

2.26.b.8. Dismantling cost of property, plant and equipment:

The company estimates assets retirement obligation on estimate basis for property, plant and equipment. Estimation is done by the management considering

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

size of the asset and its useful life in line with industry practices.

2.26.b.9. Stores and spares inventories:

The Company's manufacturing process is continuous and highly mechanic with wide range of different types of plant and machineries. The Company keeps stores and spares as standby to continue the operations without any disruption. Considering wide range of stores and spares and long lead time for procurement of it and based on criticality

of spares, the Company believes that net realizable value would be more than cost.

2.26.b.10. Fair value of investments:

The Company has invested in the equity instruments of various companies. The valuation exercise of unquoted equity instruments carried out by the Company with the help of an independent valuer, etc. has estimated fair value at each reporting period based on available historical annual reports and other information in the public domain.

12 TRADE RECEIVABLES (Contd.)

12.1 Trade Receivables include overdue outstanding from various parties aggregating to Rs.1,322.42 lakhs, (Previous Year Rs.1,335.42 lakhs), for which the Company has taken legal steps for recovery of the outstanding dues and the management is hopeful of the recovery. However, cumulative provision of Rs. 1,322.42 lakhs (Previous Year Rs.1,335.42 lakhs) exists for such doubtful debts as on 31.03.2022.

The average credit period on sale of goods is 31 days. However, no interest is charged on Trade Receivables for delay in payment beyond 31 days from the date of the Invoice.

The credit limits for customers are set based on security deposits and bank guarantees. Limits attributed to customers are reviewed periodically.

The Company has used a practical expedient by computing the expected credit loss allowance for Trade Receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates are given in the provision matrix. The provision matrix at the end of the Reporting Period is as follows. :

Ageing :	Expected Credit Loss	
Particulars	As at 31.03.2022	
Within the Credit Period	0.98%	
1-60 days past due	16.23%	
61-180 days past due	40.02%

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

37 FINANCIAL INSTRUMENTS (Contd.)

37.3 Financial Risk Management Objectives

The Company's Corporate Treasury Function provides services to the business, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Company through internal risk reports which analyse exposures by degree and magnitude of risks. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

Compliance with policies and exposure limits is reviewed internally on a continuous basis. The Corporate Treasury does not enter into any trade financial instruments, including derivative financial instruments and relies on natural hedge.

The Corporate Treasury Function monitors risks and policies implemented to mitigate risk exposures on a periodical basis.

37.4 Market Risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Company currently has not hedged any External Commercial Borrowings (ECBs). The Company performs an analysis of the impact of not hedging its ECBs. This has been done by comparing the actual cash outflows related to ECBs under current unhedged conditions in the past vis-a-vis the scenario of complete hedging of individual ECB on the disbursement day through quotes provided by the banks. Further, the Company parks its earnings in foreign currency in Exchange Earners Foreign Currency (EEFC) account and discharges its obligations in case of foreign currency loans out of the said account.

The Company's investments in listed and non-listed equity securities are susceptible to price risk arising from uncertainties about future value of the investment securities. The Company's non-current investment in equity shares are strategic investments and hence are considered as Fair Value through Other Comprehensive Income. The Company's Board of Directors reviews and approves all equity investment decisions.

37.5 Foreign Currency Risk Management

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters. Further, the Company parks its earnings in foreign currency in Exchange Earners Foreign Currency (EEFC) account and discharges its obligations in case of foreign currency loans and towards import obligations out of the said account.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities are restated at the end of each quarter. The same at the end of the reporting period are as follows :

37.5 Foreign Currency Risk Management (Contd.)

Foreign Currency Sensitivity Analysis

The Company is mainly exposed to US Dollar.

The following table details the Company's sensitivity to a 5% increase and decrease in the Rupee against the relevant foreign currencies. 5% is a sensitivity rate used when reporting foreign currency internally to the key management personnel and represents management's assessment of the reasonably possible changes in the foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in the foreign currency rates. A positive number below indicates an increase in profit or equity where the Rupee strengthens by 5% against the relevant currency. For a 5% weakening of the Rupee against the relevant currency, there would be a comparable impact on the profit or equity, and the balances below would be negative.

[Rs. in Lakhs]

Currency	Impact on profit or loss for the year		Impact on total equity as at the end of the reporting period	
	2021-22	2020-21	2021-22	2020-21
USD	3,037.48	2,277.71	1,974.55	1,480.65
GBP	(24.35)	15.53	(15.83)	10.10
EUR	6.23	(22.16)	4.05	(14.40)
CHF	(0.25)	-	(0.16)	-
JPY	-	(1.71)	-	(1.11)

37.6 Interest Rate Risk Management

The Company is exposed to interest rate risk because the Company borrows funds at floating interest rates. The risk is managed by the Company by monitoring the exchange rate on regular basis and also parking the export proceeds in the EEFC account which also provides a natural hedge for the outflows in foreign currency. Further, the Company performs an impact analysis of not hedging its ECBs. This has been done by comparing the actual cash outflows related to ECBs under current unhedged conditions in the past vis-a-vis the scenario of complete hedging of individual ECB on the disbursement day through quotes provided by the banks.

Interest Rate Sensitivity Analysis

The sensitivity analysis below have been determined based on the exposure to interest rates for instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year.

If the interest rates had been 50 basis points higher / lower and all other variables were held constant, the Company's profit before tax for the year ended would be impacted to the extent of Rs.56.28 Lakhs (Rs.87.41 lakhs for the year 2020-21).

37.7 Credit Risk Management

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company is operating through network of dealers based at different locations. In order to ensure the security of receivables, the Marketing Department computes an exposure ratio for every dealer based on his past turnover, track record, etc. The same is overseen and approved by the Board. Further, the Company also collects bank guarantees / security deposits from the respective dealers. Regular monitoring of the receivables is undertaken by the Marketing Department and in case the limits are exceeded, an auto lock system is in place in the SAP system of the Company to stop further supplies to the concerned dealer till the amount outstanding is recovered. In case of new customers, the goods are supplied only against advance receipts. For the export made by the Company, the sales are backed by letters of credit or advance receipts. The internal risk management committee of the Company meets regularly to discuss the dealers and credit risks, measures taken to address them and the status and level of risk after the measures taken.

Domestic & Export trade receivables are secured to the extent of interest free security deposits and bank guarantees / letter of credit received from the customers amounting to Rs. 5,275.36 Lakhs and Rs. 4,792.44 Lakhs as at 31st March, 2022 and 31st March, 2021 respectively. (Refer Note No. 12 for Trade Receivables outstanding).

37.8 Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages its funds mainly from internal accruals. The liquidity risk is managed by maintaining adequate reserves and banking facilities, by continuously monitoring forecast and actual cash flows and by matching the maturity profiles of financial assets and liabilities.

Liquidity and interest risk tables

The following tables detail the Company's remaining contractual maturity for its non derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

	Note - 36.9.1.1 - Discounted Free Cash flow method has been used to arrive at the enterprise value of the gas marketing business of the investee and the exploration and production assets are valued using price of recent investment / transaction (PORI) method and reserve multiple approach. Under DCF technique, the projected free cash flows from gas marketing business of the Company are discounted at the weighted average cost of capital and the sum of the present value of such free cash flows would represent the value of business. Under the reserve multiple method past transaction multiples of oil and gas companies is used to arrive at the valuation. The investee has various investments in subsidiaries / Other investments. Each of these subsidiary and Other investments have been separately valued using market price method, DCF method, CCM method and book value (NAV) method and applied the investee's stake percentage to arrive at the fair value of investee's investment. Under the market price method, the valuation is derived from the quoted market price of the share of the Company as at the valuation date. Under CCM Method, peer multiple for one or more comparable Companies is used. Under the NAV method, the valuation is derived by calculating the net assets value of the investee as at the valuation date.

37.9 Fair Value Measurements (Contd.)

37.9.1.1 The Company has invested in the equity instruments of various companies. However, the percentage of shareholding of the Company in such investee companies is very low and hence, it has not been provided with future projections including projected profit and loss account by those investee companies. Hence, the independent valuer appointed by the Company has estimated fair value based on available historical Annual Reports of such companies and other information as available in the public domain and is being relied upon. Since the future projections are not available, discounted cashflow approach for fair value determination has not been followed.

37.9.1.2 In case of some companies, there are no comparable companies valuations available. In light of no information available for future projections, capacity utilisation, commencement of operations, etc., the valuation is based on cost approach.

37.9.2 Fair value of the Company's financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required)

Invigorating Growth with advanced and eco-friendly Technologies

At GACL, growth is powered by greener and cleaner technologies. With periodic upgrading and adaption of newer and greener technologies, GACL has been writing new chapters of success. By ensuring maximum capacity utilisation, the organisation is setting new benchmarks. The organisation was the pioneer in the caustic soda industry replacing the Mercury Cell Technology with the environment-friendly membrane cell technology way back in 1989. The Organisation was also one of the first state-promoted enterprises to embrace alternative sources of energy. It has 171.4 MW of Wind Power and 35 MW of Solar Power generation capacity. GACL's quest for using the best and latest eco-friendly technology differentiates it. This has also helped the organisation in strengthening its position in the market as one of the most reliable players.

Innovation is brought to life with R&D

By harping on the power of R&D, GACL has been simplifying its progress. It has improved product and production processes with its R&D initiatives. The R&D department has received 6 Patents and filed 2 more for Improved Product Processes. GACL and CSIR-IICT, Hyderabad have achieved success in developing indigenous environment-friendly technology to manufacture super speciality chemical Hydrazine Hydrate (H₆N₂O). Patent Office, the Government of India and the United States Patent & Trademark Office have awarded a joint patent to GACL and CSIR for this invention. The patent reads 'An improved process for the production of Hydrazine Hydrate'. At present, Hydrazine Hydrate is a 100% imported product in India and as an import substitute product with world-class quality will help in reducing India's dependency on imports.

Inculcating better Safety Practices

Safety is of utmost importance for any organisation. For a Chemical Industry, safety has many dimensions to it. Safety of employees and contract workers, the safety of work premises, the safety of the environment, the safety of society and so on. The negligence can have severe consequences ranging from casualties, economic losses, environmental pollution, and disruption of infrastructure to the destruction of industrial facilities and more. As GACL is one of the leading forces in the Chemical Sector, the organisation has engineered strategic plans to ensure safety at all levels. The organisation undertakes continual improvement in its Health and Safety Management Systems. The organisation is committed to enhancing customer satisfaction at all times and ensuring a safer working environment and a cleaner and greener future for all.

Intervening for a brighter society with CSR

In order to create a sustainable change in society, it is imperative to take the community along. GACL is moving forward from Corporate Social Responsibility (CSR) and emerging as a Socially Responsible Corporate (SRC). The Organisation's approach to CSR is not just compliance but giving back to society in every way possible. To achieve this, GACL works in the areas of Healthcare, Hygiene, Education, Needs of Special Children, Sanitation, Sustainable Livelihood, Skill Development, Women Empowerment, Water and Environment Conservation and the promotion of Art, Culture and Heritage. Its CSR interventions and programs are aimed at bringing the much-deserved rural population into mainstream society. To realise this GACL aligns its programs with Government programs and initiatives and continuously strives toward a better world.

SETTING INDIGENOUS LANDMARKS

India's first indigenous
Hydrazine Hydrate

GACL and the Indian Institute of Chemical Technology (IICT), Hyderabad, have successfully bagged patents from India and the United States of America for an improved process for the manufacturing of Hydrazine Hydrate. Currently, India is importing all of its Hydrazine Hydrate from Europe and other countries. GACL's Hydrazine Hydrate is an import substitute product with world-class quality. It will help in reducing the country's dependency on imports, thereby saving valuable foreign exchange. It will also strengthen India's quest to become 'Atmanirbhar Bharat'.

Based on this indigenous and environment-friendly technology, GACL is setting up a commercial-scale plant at its Dahej site at an estimated cost of Rs.405 Crores to manufacture 10,000 MTA of Hydrazine Hydrate. Commercial production from this plant is expected in near future.
