

Celebration of World Environment Day -2022

The year 2022 marks the celebration of successful 50 years of “UN Conference on Human Environment” held on 5th June 1972 in Stockholm which was the first ever international gathering to protect the environment. Every year a theme is declared by UNEP. Likewise theme for 2022 as declared by UNEP was “Only One Earth”.

Like every year, GACL Dahej took this opportunity to celebrate the World Environment Day with great zeal. Below are the glimpses of entire celebration at GACL Dahej.

SPOT TALK Competition:

“SPOT TALK” Competition was held by Environment Dept. in which the participants had to pick a chit containing a topic on which they presented their original and unorganised ideas in three minutes.

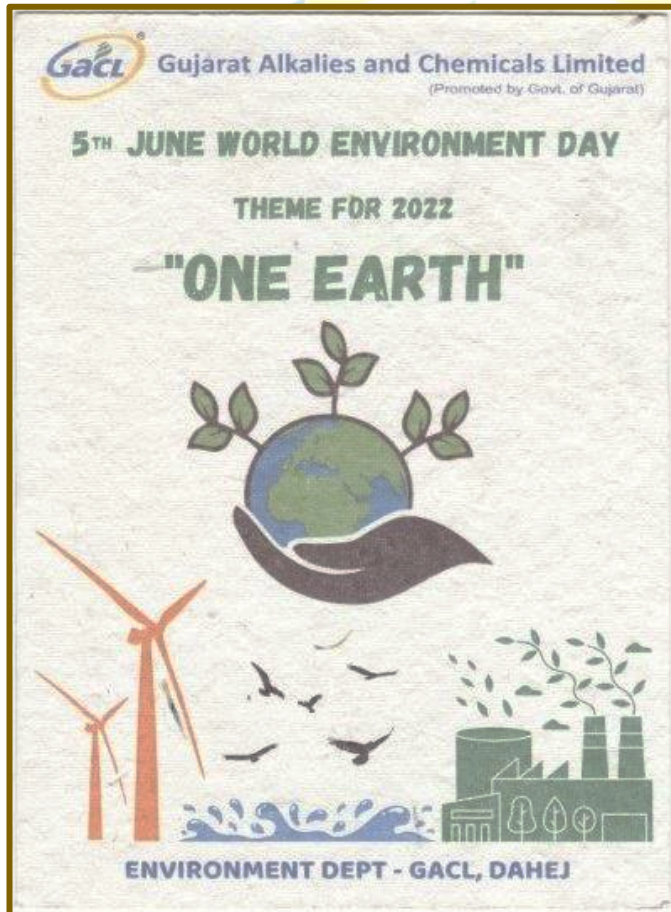

Participants delivering talk during competition

Seed Cards Distribution:

Aligned with the theme, GACL Dahej showcased its #OneEarthDrive by distributing flyers that depict various sustainable initiatives of GACL. **These flyers with seeds embedded in them can be planted to grow a blossoming flower.** These seed cards were distributed among all the employees as well as executives.

Plantation drive:

Celebration of Environment Day is incomplete without healing mother earth; obviously through plantation. Plantation drive was organised at our upcoming Chloromethane plant premises. Around 300 saplings were planted.

Let's Consider every day as World Environment Day

Felicitation of winners:

Insightful address by AGM (S,E&F)

Winners of SPOT TALK competition were felicitated by the executives and were awarded with cash prize and certificates too.

Also, remaining participants were awarded with certificate of appreciation for their participatory spirit and enthusiasm that has made the entire program successful.

Felicitation to winners
